OFFICIAL REPORT.
George P. Rowell & Co., the leading authority on newspaper information, says:
"THE FORT WAYNE SENTINEL, published at Fort Wayne, Ind., has the highest circulation rating accorded to any daily in Indiana, outside of Indianapolis.

The Fort Wayne Sentinel.

The Largest Circulation in the State, Outside of Indianapolis.

ESTABLISHED 1833. THURSDAY, AUGUST 9, 1894. PRICE TWO CENTS.

Shirt Waists.

It's a waste of comfort, Ladies to pass the summer without a Shirt Waist. You will find wastes in a desert, but you'll see the largest display of Waists, those summery things in every variety of light, airy and cool materials, in our Fresh, Bright and entirely new stock.

Cotton Dress Goods.

It isn't by a happen, so that our sales of Cotton Dress Goods are so much greater this season than ever before; trade laws don't work by chance. If qualities and quantities, if styles and prices—particularly the prices—were not right, it would have been impossible to have sold such a number as we have.

GEO. DeWALD & CO.

Saturday, August 4th

Opening Day

--YOUMAN'S HATS--

We have them in Black and Brown, and in all dimensions. Please Call and See What Will be the Correct

--FALL STYLE--

WM. MEYER & BRO.

Rooms 5 and 7 Arcade.
SOLE AGENTS.

WHO WILL GET IT?

In our Court St. show window we have placed an elegant quarter sawed Oak Bedroom Suit. The dresser has a large French Bevel glass, and the suit a year ago would have brought $100. It is worth now $75.

We have marked it $54 cash. If it is not sold today it will be marked $53 tomorrow.

We shall continue to mark it down $1 per day until sold.

It may sell in forty-eight hours or it may not sell for ten days

Do you want it? You buy it at your own price.

Tell your neighbors about this. Come down and see it yourself.

FOSTER'S.

J. G. THIEME & SON.

Tailors.

Great Reduction

—IN OUR—

Tailoring Department.

All $40, $38, $35, $30 Suits reduced to $20. All $28, $25 Suits reduced to $18.

Corner Columbia and Clinton Streets.

DOLE RECOGNIZED.

President Cleveland Forwards His Congratulations.

The United States Recognizes the New Hawaiian Government and Its Minister to This Country.

WASHINGTON, Aug. 9.—A letter of congratulation and greeting from President Cleveland in the name of the United States, is on the way from Washington to President Dole, of the Hawaiian republic. The recognition of the new republic was finally decided upon this week and the message was framed and mailed yesterday through the regular channels.

Although the customary secrecy which attends diplomatic matters has surrounded the relations of the United States with the Hawaiian republic since that country assumed its form of government, it is learned on the best authority, that there has never been any doubt of President Cleveland's course in the matter and of his recognition of the new government of Hawaii as a de facto government.

A few days ago a letter was received from President Dole conveying the formal announcement of the proclamation of the republic and the inauguration of the new government. This letter was laid before the cabinet and has been under consideration while the house committee on foreign affairs was debating whether it should report a resolution for recognition.

With the letter of greeting to President Dole, which, of course, passes through the hands of Minister Willis, was sent a letter to Willis ratifying his action in provisionally extending the usual recognition to the republic. Mr. Frank P S Hastings, who in the absence of Minister Thurston is charge d' affair at the Hawaiian legation here, has had an interview with Secretary Gresham, and was told that he had been formally recognized as the representative of the new government.

Chairman McCreary, of the house committee on foreign affairs, says that it is not customary to give publicity to diplomatic correspondence until it has reached its destination. Consequently the letter to President Dole will not be made public until sufficient time has passed for its reception, after which a copy will be forwarded to congress with a copy of the message received from him. This is the usual course of diplomatic proceedure, but the fact of the existence of the correspondence having become known may induce the president to make it public.

There is a parallel between Brazil and Hawaii on these latest developments. Soon after Brazil had changed to a republican form of government a resolution was introduced in the house by Mr. McCreary, now chairman of the foreign affairs committee, for recognition, the democrats thinking that President Harrison delayed action unreasonably. Before the committee could take action on the resolution, however, congress was notified that the president had recognized the new government.

It is stated by the friends of the administration that at no time has the president entertained any thought of withholding recognition beyond a reasonable time, nor has he any desire to leave President Dole and the other members of the administration long in doubt as to his views and purposes with respect to the new government.

ELOPERS COME TO GRIEF.

Mrs. Amelia Allen Traces Her Recreant Spouse to LaPorte.

LA PORTE, Ind., Aug. 9.—For some time the officers here have been in receipt of letters from Mrs. Amelia Allen, of Three Rivers, Mich., charging that her husband, William H. Allen, had run away with another woman and was living in this city. An officer finally located Allen, and Mrs. Allen was promptly notified of the fact. She lost no time in coming here, and this morning had Allen arrested on the charge of adultery. He was given a hearing and held to the circuit court in $1,000 bonds, under which he went to jail. Mrs Allen is wife No. 4. Two of the previous ones were divorced and the other died. She says he is a great fraud, but is willing to forgive him for the money that is in it if he will only abandon the other woman and stay with her. Allen is an old soldier and gets the highest pension granted, $72 per month, for total incapacity to earn a living. He claims to be epileptic, but the woman says he only has fits when he wants them.

ELOPES WITH AN AERONAUT.

Grace Shepherd, Sixteen Years Old Travels With George Delmont.

MUNCIE, Ind., Aug. 9.—Several weeks ago Grace, the sixteen-year old daughter of William Shepherd, disappeared. It was learned a few days ago that a girl accompanied George Delmont, the balloonist, from here, and that she was posing as his sister and being advertised to make balloon ascensions. Since the death of Tillie Sheldon at Anderson, by falling from a balloon, the parents of Miss Shepherd have been very much alarmed. They also learned that Delmont had a family in Columbus, Ohio. Yesterday he was located at Marion. The girl will be brought home and the man probably arrested.

Fleming Gets a Place.

WASHINGTON, D. C., Aug. 9.—George B. Fleming, of Fort Wayne, Ind., who was removed from his position as special pension examiner at Boston on July 1, was yesterday appointed to a clerkship in the pension office at $900 a year. Congressman Enloe, of Tennessee, secured the appointment for Fleming. The latter was the principal witness in the investigation of Pension Commissioner Raum, which was conducted by Congressman Enloe.

SHOT HIS SON-IN-LAW.

The Murder of Christian Wesner at Lebanon, Ind.

He Was Jealous of His Pretty Wife and This Led to Trouble and His Killing by His Father-in-Law.

LEBANON, Ind., Aug. 9.—On May 24, 1893, Judge Christian S. Wester was shot and killed in the Danville, Ind., court room by James Coley Brown, after making the argument of his life. His dying words were, "God pity my poor boy," and at 8 o'clock last night that same poor boy, Christian S. Wesner, jr., was murdered by his father-in-law, James Livingston.

The cause of the trouble dates back to the time of Wesner's marriage, three years ago. Wesner was very jealous of his pretty wife and this led to many quarrels. A short time after his marriage Livingston attempted to censure his son-in-law and was badly cut about the face in return. Since then they have had numerous quarrels and last night's trouble was not unexpected.

Tuesday night Wesner went home and drove his wife, mother and sister from the house. They took refuge at the home of Mrs. Kise, a neighbor, and yesterday morning sent for Deputy Prosecutor Winton A. Dutch, who prepared warrants for Wesner's arrest, but the women were afraid to sign them, as Wesner was very abusive and had often threatened their lives.

Wesner remained the sole occupant of the house that night and part of the day. Last evening he began a search for his wife and with that view went to the home of his father-in-law on West Busby street.

As he opened the gate Livingston appeared at the door and asked him to leave. He replied that he had come for his wife and was going to have her, whereupon Livingston reached behind the door and secured a double barreled gun and with the remark, 'I told you I would fix you," fired both barrels into the body of his wayward son-in-law. His victim fell to the ground and cried: "Jim you have killed me," to which the murderer replied: "I don't give a ——if I have."

His wife, who was hiding in the house, hearing the shots ran to the side of her now dying husband, and at the sight of his wounds fell prostrate across his body. She quickly recovered herself and refused to leave him.

Coroner Porter was sent for, and Deputy Prosecutor Dutch took the man's dying statements. He was removed to his home on North East street. He received the entire contents of both barrels of the gun and died at 10 o'clock last night.

Livingston was immediately arrested and lodged in jail. The only thing he will say is: "I am sorry, but I had to do it." Young Wesner was a remarkably bright young man and quite pleasant when not under the influence of liquor, but when drinking was quarrelsome and considered a dangerous man. He had been in numerous scrapes and was quite handy with a gun. He was under indictment for attempting to kill a companion with a razor and last winter shot at George Hall, who was passing by his home, claiming Hall was against him in the trial of Brown for the killing of his father. Like his father he was a lawyer, and bore many characteristics of that well known attorney. The afflicted families have the sympathy of the entire community.

PATTI ROSA.

The Remains of the Sweet Singer Laid in the Grave.

CHICAGO, Aug. 9.—Funeral services over the body of Mrs. John W. Dunne, or, as she was known to the public at large, Patti Rosa, were held at the Church of the Ascension this afternoon. The church was crowded and after the services a large number of carriages followed the remains to Rose Hill, where the remains were temporarily placed in a vault. Theatrical people and social lights were present from far and near, and none of the large companies playing in the city at the present time was without some representation. The floral tributes were many.

JUDGE BENNETT DEAD.

Expired Suddenly at the Home of Major Crumbaugh.

HOPKINSVILL, Ky., Aug. 9.—Jean G Caswell Bennett, chief justice of the court of appeals, of Kentucky, died very suddenly at 8:30 o'clock this morning, at the residence of Major S R Crumbaugh, in this city. His death was the result of rheumatism. He was a candidate for reelection at the election which will occur in November next. According to a constitutional provision his successor will have to be appointed by the Governor and the election will go over to Nov 1895.

Shot a United States Soldier.

NEW CASTLE, Col., Aug. 9.—The excitement over the shooting of a United States soldier guarding the Midland bridge was intensified last night by the firing of a shot by some unknown person at First Sergeant McKane. The bullet struck just in front of him. The soldiers were in arms at once and a thorough search was made without finding the would-be murderer.

Devotion Rewarded.

FROSTBURG, Md., Aug. 9.—The Consolidated Coal company has notified all the miners who stuck to their posts during the late protracted strike that they will each receive nine months rent and fuel free.

IS IT, OR IS IT NOT.

An Agreement Between the Conferees on the Tariff Bill.

Early Reports Say None Has Been Reached but a Later Story Would Indicate an Agreement.

WASHINGTON, Aug. 9.—No one could be found about the capitol today who would assert that an agreement had been reached on the tariff, nor that there would be any possibility of a report today. The confidence of an agreement which seemed to pervade every part of the capitol yesterday has disappeared and the conferees seem today to have encountered obstacles to an agreement which may eventually result in a disagreement or will take several days to get over.

It is stated by a close friend of the administration that contentions in the president's letter for free iron ore and free coal have been only partially conceded and the inference is left that the house conferees are now standing out for free coal and free iron ore both.

It was also said that the senate contention for the rates it had made in the woolen and metal schedules was found to be a decided obstacle in the way of an agreement and that when the point was reached where a tentative agreement or understanding upon the main points was in sight the house conferees found that the senators were unwilling to make such table concessions on the manufacturing schedule.

Thus the prospects of an end to the deadlock seemed to be farther away than yesterday. As to the time when a report can be made, one in a position to know says, even if an agreement should be reached, it would take twenty-four hours to prepare a report in shape to be submitted to the senate.

The tariff conferees remained in session until a few minutes past 12 o'clock. When they adjourned these democratic conferees proceeded to the president's room where they held a private consultation free from interference or interruption.

A report, however, soon gained general circulation which completely upset the reports generally circulated earlier in the day, as the latter story was to the effect that an agreement had been absolutely arrived at and that it was on the lines of the understanding which was reached last night that iron ore should be made free, coal made dutiable at forty cents per ton and that the compromise sugar schedule should stand. The indications point to the varification of this later report.

The republican members of the conference had not, at 12:30, received any formal notification to attend a meeting, but they had received intimation that a full conference would be held this afternoon and immediately began consultations with the leaders on that side of the chamber, apparently, with the view of preparing themselves for the final conflict which they believe to be at hand.

A petition was today circulated among the members of the house of representatives, urging the house tariff conferees to stand by free sugar and a permanent income tax. Representative Bland started the petition and it was numerously signed. It is as follows: "We, the undersigned, democratic members of the house, request our committee on conference on the tariff bill to insist on the provisions of the house bill relating to free sugar and a permanent income tax and secure the best compromise possible on other schedules of the bill."

Representative McMillin, one of the house conferees when seen, stated that since the first meeting today he believed an agreement was in sight, coal and iron ore had not yet been settled but the main features of the bill would be agreed upon so that the republicans could be called in tomorrow. During the recess of the conferees there were conferences between leading conservative senators and the impression prevailed that the manufacturing schedules were being considered.

A copy of the tariff bill, which had been in the hands of Senators Gorman, Murphy, Vest and Jones, was taken into another room, when Senators Gorman, Brice and Murphy held a consultation. Senator Smith was sent for, but he was not about the capitol. At the noon recess of the tariff conference one of the house conferees stated that the reports which had been in circulation of presidential interference with the prospective agreement effected yesterday were not warranted, and that nothing had been suggested at the conference today to indicate any executive influence. The intimation was made, however, that a good many minor obstables had been encountered today.

3 P M.—The conference of the conservative members of the senate with the democratic senate conferees developed the fact that the senate conferees had encountered obstacles in the metal, woolen and other schedules of such a character that they did not feel justified in proceeding further with out consulting the conservative senators. Senators Gorman, Brice and Murphy were present during the earlier part of this interview and Senator Smith joined them later, and a full statement of the situation of the demands of the house was made.

While the demands cannot be learned it is understood that the house members demanded very liberal concessions on many articles in the metal and woolen schedules and also in earthenware and glassware. The conservatives, after remaining in session for an hour and a half, came to a decision as to what they would be willing to do in this matter and placed their reply in the hands of the senate conferees, who took it with them to the afternoon session of the conference.

One of the conservative senators said afterwards that the further proceedings of the conference would depend upon the acceptance or rejection of the proposition of the conservatives and that the result would be made known today. It was also ascertained after the close of the session that it was developed at the tariff conference this forenoon there had been a misunderstanding as to yesterday's agreement and it was temporarily declared off. It looked very much like a failure to agree for a time but after more or less argument a tentative arrangement was made and the meeting with the conservatives decided upon.

DISTRESS IN COREA.

The Citizens On the Verge of Starvation.

Secretary Gresham Asked to Furnish Ships to Send 1,000 Barrels of Flour.

WASHINGTON, Aug. 9.—Secretary Gresham has received from the Christian Herald, of New York, the application referred to in the morning dispatches for a government ship to transport 1,000 barrels of flour to Corea. This is the first notice that the department has had that any unusual measure of distress and depreviation exists in the kingdom. Assuming that it is true, the officials do not see how so small a quantity of grain, which the Coreans scarcely know how to use, will be of much avail in a population of 10,000 000 people. To complicate the situation, it is said that the Chinese and Japanese soldiers now occupying Corea are generally living on the country and supplies sent to the people might finally fall into the hands of the foreign soldiery. Secretary Gresham has not yet disposed of the application. There is a precedent for this action in the case of the Constellation, which was sent with a cargo to the relief of Ireland, during the Russian famine, the war vessels being unsuited and a regular freight steamer was chartered.

WASHINGTON, Aug. 9.—The house bill, modifying and partly repealing the revised statutes requiring proof of subsequent loyalty before pensions or bounty lands are granted to Mexican war veterans, was discussed in the senate this morning. Mr. Hill asked if the bill was to remove the last vestige of political disability against these veterans, and was answered in the affirmative by Mr. George. Mr. Platte opposed the bill on the ground that there were thousands of these old claims, and suggested that as democrats complained of the present pension list this would be a good time to call a halt. The matter went over without action. The senate went into executive session and at 1:45 p m. adjourned until tomorrow.

The senate made and effort to dispose of the Chinese treaty in the executive session today, but did not succeed, owing to the absence of a quorum. On account of the absence of a large number of senators who are expected to return tomorrow, the treaty was postponed until then, and the senate adjourned after being in executive session only about half an hour.

Chairman Wilson was with President Cleveland until 10 20 last night, Secretaries Gresham, Carlisle and other cabinet officers being present and the prospective tariff agreement was fully gone over.

COULDN'T AGREE

And in the Wrangle the Firm is Busted.

CHICAGO, Aug. 9.—The Women's Baking company, the stockholders and directors of which were exclusively women, assigned today. The liabilities and assets are small, as the company's business had dwindled rapidly for the past year. The assignment was caused by the foreclosure of a mortgage by the creditors. The company has attracted considerable attention lately by the numerous quarrels among the stockholders and directors.

Ahead of Time.

SPRINGFIELD, Ill., Aug 9.—The relay bicyclists arrived here at 7:12 this morning nineteen and one-half hours ahead of time.

LOCAL LINES.

A drunk who was endeavoring to cool off on fire water, was run in this afternoon.

Dr. Warren Anderson, of Kendallville, is here assisting in giving baths at the Abbot sanitarium.

The funeral of the late Fred Eckart will be held tomorrow afternoon at 2 o'clock at the residence, on East Wayne street.

The funeral of the late Sarah Bowser Cramp, wife of W. S. Cramp, will be held Friday afternoon at 3 o'clock from the home, No. 86 East Washington street.

The Miller rag warehouse caught fire again today and the hose cart was sent to extinguish the blaze. Miller has been notified to get his rags out of the place at once.

The funeral of the late Mrs. Edsall will be held tomorrow morning at 9 o'clock from the residence and later at the Berry Street M. E church, the Rev. M S Marble officiating.

The fire department was called to an ice house near the Wabash shops about 3 o'clock this afternoon. Spontaneous combustion of the rapidly melting ice is supposed to be the cause. No damage—to the ice.

EXCITED AND NERVOUS

Is the Condition of the Grain Market at Chicago.

Corn Continues to Bob Around in Price and Claims the Attention of the Speculators.

CHICAGO, Aug. 9.—The fluctuations in the early trading in grain were less violent than they were yesterday, but the conditions were bullish and the trade continues excited and nervous. The bear panic, which had possession of the market yesterday, had given place to a bullish feeling at the opening. The leading influences leading to the reversal of yesterday's tone were the bullish features. The Cincinnati Price Current's summary noted a further deterioration in the growing corn crop, with increased feeding of wheat to live stock and the fact that the weather map continued to show high temperatures, no rain in the corn belt and reports from Kansas of a total failure of the corn crop. September corn opened ragged anywhere from 57c to 59c in different parts of the pit, against 55¾c at the close yesterday. But the price, as soon as a settled figure was reached, was 57¼c, and from that price it steadily declined till it touched 55¾c, yesterday's last price. Then it rallied to 56¼c. May corn opened at from 53 to 54c against 52⅞c at the close yesterday, sold to 55c, eased off to 53¼c, but rallied to 53⅞c. September wheat opened at 56¾@58c against 55½c yesterday, touched 56¾c and then, on heavy selling by Counsellman & Day, broke to 55⅞@56c. This break was assisted by a report that 195,000 bushels had been chartered at Toledo for shipment to this port; and by the fact that Liverpool was a half penny lower. Good buying set in at the decline, however, and a rally followed, and the price rose to 56¾c. September oats sold as high as 33½c against 32½c, the final price yesterday, but eased off to 32⅛@32⅜c. Provisions were weak. September pork sold off 12½c to $13 07½ but rallied to $13 12½. September lard receded 2½c, and September ribs 5c.

The strength in grain continued, September corn selling up to 57c, May to 54½c, and September wheat 56⅝c by 11 o'clock. The advance which followed the opening was caused by the Washington weather indications predicting no rain in the corn belt within the next thirty six hours. The country is also buying again and the big bear operator, Partridge, was a heavy buyer, taking everything that was offered. The country is also buying wheat. The trade in cereals is broadening.

CHICAGO MARKETS.

CHICAGO, Aug. 9.—Wheat, steady; Aug., 55c; Sept., 56½c; Dec., 59½@59⅝c.

Corn, higher; Aug., 56½c; Sept., 56⅞c, Oct., 56c.

Oats, steady; Aug., 32½c; Sept., 32½c, May, 37c.

Pork, firmer; Sept., $13 30; Jan., $13 30.

Lard, firmer; Sept., $7 30; Jan., $7.25

Ribs, firmer; Sept., $6 97½, Jan., $6 85.

Rye, 49c bid.

OPPOSED TO BYNUM.

Some Democrats Are Trying to Spring a Rival Candidate.

INDIANAPOLIS, Aug 9.—The democratic convention to nominate a candidate for congress in this district has been called to meet on Tuesday next, and the opposition to the renomination of Congressman Bynum is at work trying to center on a man to place before the convention. It had been supposed that Bynum would have no opposition, but the last few days have developed the fact that he is not acceptable to a number of democrats, and these have concluded to make a canvass and endeavor to agree upon a candidate to be presented to the convention. The delegates were selected some weeks ago and are believed to be generally well disposed toward the incumbent. The names of John W. Kern and W. E. McCullough have been suggested by Bynum's opponents, but nothing will be done till a meeting is held to estimate the strength of the opposition. Bynum's friends say that he will be renominated by acclamation.

A BAD COWBOY.

He Pounds a Priest Over the Head With a Cartridge Belt.

FARGO, N. D., Aug. 9.—Last night a drunken cowboy named Collins, attacked Father Wilhelm at the latter's house. He attempted to pound the priest over the head with a cartridge belt and was shot through the shoulder. He will recover.

MAILS TO COREA.

Interesting to Fort Wayne Readers Who Send Letters There.

WASHINGTON, Aug 9.—Little interruption to the transmission of the United States mails can be caused by the war over Corea and no apprehension of delay of any sort is entertained by officials of the postoffice department. Corea has no regular postal system and such crude service as is maintained is either under the authority of the Japanese government or through private enterprise. There are three postoffices in the kingdom, at Fusan-Po, Genshan-sin and Jinsen, which are under Japanese jurisdiction. All other arrangements for carrying mails are made by private business establishments, as in China beyond Shanghai. The amount of mail transmitted between Corea and this country is naturally very small and is forwarded with the mails sent from Japan. A despatch pouch is sent regularly by our legation at Seoul, Corea's capital, to Yokohama, and reaches the United States three or four times a month. Its transportation from Seoul to Yokohama is accomplished solely through arrangements effected by the state department. Steps were taken last spring by the Corean government through its legation officials here to secure all necessary information preparatory to admission into the universal postal union, but since then no action has been taken.

THE GREAT ENGINE

In the Pullman Works Starts Up After a Long Idleness.

Strikers Still Hopeful of Victory and Appeal to Labor Unions for Financial Aid.

CHICAGO, Aug 9.—The great Corliss engine in the Pullman shops was in operation today for the first time in three months. Two more departments were opened and about 950 men were at work. The strike leaders still hope for a victory and have sent telegrams to almost every labor organization in the country stating that the strike will be won if it can be continued awhile. The messages asked for money and stated that the strikers are starving.

GEN. ANTHONY WAYNE.

Defiance Does Him Honor and Fort Wayne Should Do So.

DEFIANCE, Ohio, Aug 9.—Yesterday was the biggest in the history of Defiance, for 100 years ago Fort Defiance was completed by Gen. "Mad" Anthony Wayne. From early dawn until evening the streets were thronged with people, and a conservative estimate of the number is 20 000. They came early and stayed late. The old pioneer was everywhere present. The exercises were opened by a grand military and civic parade under command of G. A. R Department Commander E. E. Nutt. In the parade were companies of the state militia, the continental guards, of Fostoria, Ohio, and civic societies of northwestern Ohio. This parade was fully an hour in passing, and was one of the greatest processions ever witnessed in this section. Governor McKinley and staff witnessed the parade from the reviewing stand.

The exercises in the afternoon were held on the old fort ground famed in history in connection with General Wayne. All the bands present, five in number, consolidated and played the famous 'Continental March," composed expressly by Professor Alder, the noted composer of Philadelphia. Speeches were made by J. F. Dietrick, mayor of the city, who welcomed the visitors on behalf of the people of Defiance. He was followed by S. M. Tyler and Governor McKinley.

E. B. Hay, of Washington, exalted ruler of the grand lodge of Elks, followed in a happy speech. Allen Dougall, of Fort Wayne, made a masterly address in which he took occasion to give some history of the Maumee Valley and of the battlefields and forts of the Indian wars. He was followed by Rev. M P. Kinkead, of St. Mary's Catholic church, of this city. Fully 15,000 persons were on the old fort grounds.

OPIUM RESORTS.

Several Chinamen Sent to the Bridewell From Chicago.

CHICAGO, Aug 9.—Several Chinamen who have been sent to the Bridewell on fines for keeping opium resorts, are in fear lest they lose their pig tails. Their heads were about to be shaved, as is the usual treatment of prisoners, when they set up a howl and declared that they would protect their cues with their lives. Superintendent Crawford ordered his men to omit the shaving process, but to search the prisoner's heads. Half a dozen of the men had opium concealed in their hair and the drug was taken from them, despite their protestations that they would die without it. Superintendent Crawford reported his action in protesting the pig tails to Mayor Hopkins, and was informed by the corporation counsel that there was no Chinese-American treaty protecting pig tails.

TOOK MORPHINE.

Quarreled With Her Lover and Then Suicided.

CHICAGO, Aug 9.—Mae Hastings, said to be from Louisville, Ky., killed herself at the Great Northern hotel early today with morphine. Miss Hastings was a beautiful young woman and is said to have belonged to a prominent Louisville family. A quarrel with her fiancee, whose name is unknown, is thought to have caused her suicide.

Gone Wrong.

BOISE, Idaho, Aug 9.—George N Hinckly, of Moscow, Latah county, has been arrested on a charge of forging county warrants in amounts ranging all the way from $6,000 to $15 000. Hinckly was deputy auditor of Latah county under Cone and was entrusted with the entire business of the office. He is a bright, prepossessing man and had the confidence of the entire community.

Will Withdraw Troops.

DENVER, Col., Aug. 9.—General McCook has withdrawn all troops from service along the line of the Southern Pacific railroad in Arizona. In view of the firing upon soldiers at New Castle, it is not likely that the Colorado or New Mexico troops will be withdrawn soon.

A Baron Dead.

BERWICK-ON-TWEED, Aug. 9.—Thomas Acheson Denman, Second Baron Denman, marshal and associate of the lord chief justice of England, is dead. He was eighty-nine years old.

New Cholera Cases.

ST. PETERSBURG, Aug. 9.—Twenty-two new cases of cholera, and fourteen deaths from the disease have been reported here today.

POLICE CULLINGS.

Mrs. Jacoby Run Down and Captured Last Night.

She Was Sent to Jail This Morning—About Rubbish Fires—Chief Borgman Highly Honored.

After two days hard chasing the Fort Wayne police managed to capture Mrs. Ida Jacoby. The lady escaped from the lilly early yesterday morning and late in the afternoon word came to the station that the woman was at her home on Caroline street. The patrol went out again and just as it hove in sight Mrs. Jacoby and a male friend jumped into a buggy and drove away at a rapid rate. The patrol driver gave chase but was unable to overtake the fugatives. Two officers were then stationed in the high weeds near the house and about 11 o'clock saw the woman and her companion returning. Both were captured but the fellow cried and took on at such a rate that he was let go. Mrs. Jacoby was taken before Mayor Oakley this morning and charged with drunkenness. She was fined $1 and costs and went to jail. This action was thought necessary as the humane officer is anxious to get hold of the woman's little son and have him sent to some good institution.

ISSUES AN ORDER.

The superintendent of police has issued an order notifying all citizens to leave on burning rubbish about their premises during this extremely dry weather. So many fires have occurred recently that the authorities deem this precaution very necessary.

A PITIFUL SIGHT.

Yesterday afternoon the attention of Officer Hardendorf was called to the case of a poor old horse which was wandering about the flats north of the city. The animal had been turned loose by its owner to shift for its livelihood. A number of thoughtless boys had chased the poor old creature about the commons until it fell and was unable to rise. Here it lay moaning and dying of thirst for two days. Officer Schlandroff was notified and the animal was killed and thus put out of its misery.

GRAVE CHARGES.

Chief Borgman was last evening at roll call called upon to answer to some very grave charges. About the time he was ready to sink through the station house floor Superintendent Liggett stepped up and pinned a fine gold star on his coat—a gift from the police force. The star is a beauty, and to say that 'Billy" appreciates it, is putting it mildly.

A COUNTRY FRACAS.

Miss Hattie Godfrey Cut During the Racket.

Hiser's Famous Road House Saloon the Scene of Another Disgraceful Row—They Were Dancing.

It was hot last night, but not too hot for a dance out at Hiser's saloon, a well known road house near Stellhorn's saw mill, a few miles southwest of here. In fact, it is never too hot or too cold for a "hoe down" at this well known joint, and last night a gay crowd had gathered to while away the pleasant (?) hours. Liquor was consumed as usual and about midnight the air was ripe for a fracas. Some one started the ball rolling by threatening to put some one else out. Then they fought. During the row Miss Hattie Godfrey, a well-known young lady living on the Indian reservation and a member of the widely-known Godfrey family, met with an accident which came nearly terminating fatally. In the grand rush which was made for the door the young lady was quite roughly handled by some of the toughs in attendance and was pushed through a glass door. Her right hand came in contact with a sharp piece of glass and as a result a terrible gash was cut in the girl's hand. The ulner artery was severed and the young lady came near bleeding to death. A rig was quickly procured and Miss Godfrey was brought to this city in mad haste, the horses being covered with foam from hard driving when the young men pulled up at Dr. Enslen's door with the injured girl.

After the wound was dressed Miss Godfrey was taken to the St. Joseph hospital. She had a narrow escape.

MEXICAN PROPHET.

He Predicts Earthquakes in the Vicinity of Mexico City.

CITY OF MEXICO, MEX., Aug 9.—Considerable apprehension is felt here in the volcanic zone, in which the City of Mexico, Pueblo and other populous Mexican cities are situated, over the predictions of Juan N. Contreas, the famous meteorologist and scientist of Guadalajara. Senor Contreas predicts that between tomorrow and Sunday the region around the volcano of Popocatepetl, southeast of this city, will receive an earthquake visitation, a disturbance also occurring between August 15th and 18th. Should the shocks miss this section they will be felt in the state of Oaxaca, to the south. Senor Contreas during the past two years has made many predictions of earthquakes in Mexico, nearly all of which have been verified by fact. He is a follower of Falb, the great European prophet, and bases his calculations on the conjunction of the sun, moon, stars and subterranean forces as the cause of the disturbances.

The New Polish Church

CLEVELAND, Ohio, Aug. 9.—Secretary Chrowtowski, of the Polish National Catholic church committe, has received letters indicating that about forty churches will be represented at the convention to be held in this city August 20. The election of a bishop will be one of the chief objects of the convention and it is almost certain that Rev. Father Kolassewski, who started the independent Catholic church movement in this city, will be honored with the office.

DANGEROUSLY INJURED.

John Archer, of Washington Township Hurt.

Parent, the Frenchman Who Was Stabbed, Now at the Point of Death—Casualties.

John Archer, a well known farmer and ex-trustee of Washington township, who resides five miles north of the city on the Coldwater road, met with a quite a painful and serious accident at his home last evening.

Early in the evening he went to his stable to get a horse and, when passing some of the colts, they commenced kicking. Mr. Archer was struck by their heels and hurled up against the stone wall. Several of his ribs were broken, his head severely bruised and he was also injured about the breast and back.

He lay unconscious in the stable for several hours before he was found by the members of his family, but he was then removed to the house and tenderly cared for. Physicians from this city were immediately summoned and they did all in their power to relieve the sufferings of the old gentleman. It is thought that he was injured internally and that the accident may prove very dangerous to his life on account of his age, he being seventy-three years old.

J. W. HAYDEN HURT.

J. W. Hayden, of the Randall Bicycle company, is laid up at home with a serious injury to his left leg. Mr. Hayden was seated on a bicycle in front of the agency, when a bystander playfully gave the wheel a push, throwing him off. Mr Hayden was seriously hurt, the knee cap being nearly torn off. He has been confined to his room for the past two days.

CUT HER SCALP.

A ten-year-old girl at the St. Vincent orphans' home had the misfortune to fall and cut a deep gash in her scalp. Dr. McOscar was compelled to take a number of stitches in the wound.

ARM BROKEN.

Mrs. Sarch Krieg, of No. 34 Waffel street, while hanging a curtain Wednesday afternoon, fell from a chair and broke her arm, near the wrist.

HE MAY DIE.

Parent, the Frenchman who was recently stabbed by a fellow countryman, named Bercot, is lying at the point of death at the Hope hospital. Gangrene has set in and the doctors say the man has but a poor chance to pull through.

ONCE LIVED HERE.

Henry Whitmann Murderously Assaulted by His Sons at Chicago.

Henry Whitmann, so murderously assaulted at Chicago on Tuesday by his sons, and who is now lying at the county hospital in that city ill unto death, was formerly a resident of this city, and is well known here. He was a machinist in the railroad shops here about eighteen years ago, and left for Logansport, afterwards going to Chicago. The telegram giving the account of the sons' assault upon their father, is as follows.

"Early in the morning the boys, Walter and Harry, returned home after spending the night at a dance. Mr. Whitman upbraided them for staying out so late and the boys retaliated with angry words. From words they resorted to blows and the father was chastising the boys in a wholesome manner, when one of them plunged a knife into the old man's stomach, producing a frightful wound. When the police were called they were denied admittance to the house, but gained entrance by force. The father was sent to the hospital in an unconscious condition and the boys were locked up at the West Chicago avenue police station. The old man was revived long enough to identify his sons as his assailants."

George Nill, of this city, is a brother-in-law of Mr. Whitmann, the man who was assaulted by his sons.

MARY EDITH WOODWARD

Will Organize a Purity Association in This City.

Mary Edith Woodward, of Indianapolis, the secretary of the state association, will be in Fort Wayne the latter part of next week to organize a branch of "The Ladies' Social Purity Association of the United States."

Faris Nominated.

TERRE HAUTE, Ind., Aug. 9.—George Washington Faris was nominated for congress in the Sixth Indiana district by the republican convention today, defeating Col. Thomas H. Nelson, ex-minister to Chili and to Mexico.

Hackley Wanted.

SPRINGFIELD, Ill., Aug. 9.—Governor Altgeld has issued a requisition on the governor of Colorado for Granville N. Hackley, wanted at Chicago for the murder of Aaron B. Bright, June 9, 1894, and arrested in Colorado Springs.

The Kolb Leaders.

BIRMINGHAM, Ala., Aug. 9.—The Kolb leaders were in conference until an early hour this morning at work on resolutions or an address to the people, which they will make public later.

OUR hot weather seems to have magnificent staying qualities.

THE weather prophet ought to be killed. Let's have one that will give us rain.

THE prohibition state convention of Michigan, nominated A. M. Todd, of Kalamazoo, for governor.

PRESIDENT CLEVELAND'S administration was indorsed and the proposal for a popular vote for senator defeated in the North Carolina democratic convention.

GENERAL JAMES B. WEAVER, the populist candidate, was indorsed by the democratic congressional convention at Council Bluffs, which declared for free coinage and arbitration of labor disputes.

ACCORDING to a telegram from Indianapolis, Henry C. Berghoff, of this city, has written his friends that he will accept the nomination for treasurer of the state if it is tendered him by the democratic state convention.

FAIR JUNE now sheds her brilliant rays over our once darkened city. The city authorities cannot turn out her light and for a brief time our people can wander forth in safety after old Sol has retired. The moon comes as an especial public benefactor at the present time and her coming is welcomed by all.

THE five hundred building associations in Indiana are now required by the state law to furnish an annual report to the auditor of state by June 30 July is allowed as a month of grace. If the report is not forthcoming by August 1 the officers of the delinquent association are liable to fine, and the auditor has power to make an investigation of the association's accounts. Two hundred associations are still delinquent, and the auditor will proceed against them according to law.

SOUTH WAYNE as naturally belongs to Fort Wayne as the arm of a man does to his body, and hence annexation to the city should by all means be accomplished. South Wayne is a beautiful suburb, a handsome and desirable residence locality and has a population of nearly 3,000 people, with an assessed valuation of about $1,000,000. The joint committee of the council will report in favor of annexation and the ordinance will be put on its final passage at the council meeting next Tuesday night.

THE democratic majority in Alabama, all based on trustworty figures, is 26,000. The democrats have twenty-two senators to thirteen for the populists, and sixty-one members of the house to thirty-nine populists. Kolb has issued a proclamation charging fraud, but as his charges are based on the vote that he expected before election to get, they are not well sustained. The Jeffersonian-Populite-Republican party of Alabama has been done for in such short order that people wonder what it was begun for.

IF THE centennial committee is not successful in raising sufficient funds to celebrate the one hundredth anniversary of the building of the old fort and concludes to drop it, the newspapers of the city will probably take hold of the matter and celebrate the event at their own expense. They will not see Fort Wayne disgraced by allowing this event to pass unobserved. Long before this time a monument of General Wayne should have been erected on the site of the old fort. Let this be done, and let us also celebrate in a proper manner our centennial anniversary.

THE numerous fires which have occurred in this city and throughout the county during the last several days ought to be a warning to every one to be extremely careful in the burning of leaves and other rubbish about their premises. The long drought has made everything as dry as tinder and a single spark, which ordinarily might do no harm, is liable to start a conflagration that will destroy thousands of dollars' worth of property. Many of the fires which are attributed to tramps or to incendiaries are, no doubt, caused by the carelessness of persons who have started rubbish fires in the vicinity.

SPEAKING on the subject of the erection of more drinking fountains along the streets of this city, Secretary McCaughey, of the City Y. M. C. A., said last evening that the fountain in front of that institution, erected by the Woman's Christian Temperance union, furnished over 3,000 drinks to the thirsty one day this week. Visitors in the reading rooms were delegated by turns of an hour each to make the count and the above was the result. With such figures, can there be any doubt as to the value of the public drinking fountain? Would that we had a dozen more along Calhoun street and the same number in other parts of the city.

Exports of Gold.

From the way that some uneasy writers talk about the exportation of gold it might be supposed that this is something that has never happened before. They seem to forget that in twenty-one out of the last thirty years the exports of gold from the United States have largely exceeded the imports, the total excess in that period being $461,622,000. They also forget that this country is a very large producer of gold, the product of our mines during this period having aggregated some $1,100,000. Allowing one-third of this to be used in the arts, and deducting the net exports, we have still quite a handsome addition to our domestic stock.

It is true that the net exports for the closing months of the last fiscal year were much in excess of the average. They amounted during May and June to $45,500,000. But then, during May and June of 1891 they were $45,900,000, and this was after the McKinley bill had been passed and there was no tariff agitation on which to lay the blame.

These gold figures taken by themselves are not always plainly significant. Thus it would puzzle a mere party organ to explain why during the years 1887 and 1888 the imports of gold exceeded the exports by $58,000,000, while in the years 1889 and 1890 the exports exceeded the imports by $54,000,000. These were the first two years of the Harrison administration, before the tariff had been changed; yet in the next two years, 1891 and 1892, under the McKinley act, the exports of gold exceeded the imports by $68,500,000. More of this excess, however, was in 1891, the balance in 1892 being nearly even. Then came the scare of 1893, when the net exports rose to $87,500,000, dropping in 1894 to $4,500,000, just the figures of 1890.

To any one who will take the trouble to reflect over the conditions existing at these several periods it will be evident that no one cause is sufficient to explain the movements of gold. It will be also evident that an outward movement from a gold producing country like our own is not in itself a cause for alarm, though it is often a significant index that ought to be carefully studied, in connection with a great number of other statistics without which the gold figures alone may be misleading.

Utah.

It is as a bimetallic state that Utah wishes to put herself on record when she comes into the Union. Therefore Congressional Delegate Rawlins caused to be made a silver penholder with a gold pen attached. This he provided for President Cleveland to sign the act which permits Utah to become a state. The pen will now be treasured as a historic souvenir.

But the president's signature does not make the territory a state. The present enabling act empowers the people of Utah to hold a constitutional convention, prepare a state constitution and submit it to the voters. If they ratify it, and if nothing in it is contrary to republican government or the United States constitution, then the president will issue a proclamation declaring Utah to be a state. She will be the forty-fifth. The forty-fourth was Wyoming. Utah would have been in sooner only for polygamy.

Utah cannot, however, elect any senators or representatives to the present congress. It ends March 4, 1895, and in March, 1895, Utah's constitutional convention will meet. The constitution it frames will be submitted to the people for ratification the November following. State officers and congressmen will be elected under the new constitution immediately. The legislature will convene in December and immediately elect senators. Actually, therefore, Utah will not be a state till near the close of next year.

The death of General Augustus J. Pleasanton at his farm near Philadelphia recalls the fact that it was he who first advocated the celebrated "blue glass theory." From certain experiments he made he was led to the conclusion that the blue rays of light had a remarkably beneficial influence on both animal and vegetable life. He published a book setting forth his idea, and it attracted wide attention. Soon all over the country houses were to be seen with part or all of the windows of certain rooms filled in with blue glass. But the fad died out, as all fads do. General Pleasanton, however, seems to have profited by his own doctrines, for he lived to the good old age of 86, in active business until the past six weeks. General Augustus J. Pleasanton was not the commander who distinguished himself so gallantly in the civil war. That was his brother, General Alfred Pleasanton.

Besides the outrages and violence attendant on labor disturbances in July the month will long be remembered as one in which an unusual number of fatal lightning strokes and accidental explosions occurred. Notable among the latter are the blowing up of the gun carriage at Chicago and the terrible mine explosion at Hazleton, Pa.

If any state needs trained militia, it is apparently Illinois. Yet Governor Altgeld reports that the Pullman strike will cost the state so much money there will be nothing to pay the expenses of national guard encampments this summer, and there will therefore be no encampments.

Perhaps Debs will run for congress now. Perhaps he will lecture. That clear cut, Grecian profile of his is almost as handsome as James Whitcomb Riley's.

The Pullman strike will cost the United States government $255,000 for deputy marshals, not counting the expenses incurred by the regular soldiers.

Thousands of Americans in Europe will this summer struggle assiduously to bring home with them the true British accent.

In the matter of the tariff bill it took congress a long while to agree to disagree.

Summer Schools.

The University Magazine mentions 22 summer schools in various parts of the United States this season. Seven universities hold regular summer courses which count for graduation. This is a welcome opportunity for those poor and ambitious young men and women who must pay their own way through college. They mostly do it by teaching. At a time when there is vacation in their own schools they are thus enabled to get in a full term's college instruction for themselves. Most of the universities are pleasantly situated in the midst of semirural surroundings, so that the earnest student will really have pleasant change and recreation while he learns.

The universities that are open are Harvard, Cornell, Virginia, Wisconsin, Minnesota, Michigan and Pennsylvania. Some of them have as many as 44 different courses of instruction. Thus the student desiring to perfect himself in law, medicine, history, science, languages or any branch of instruction can choose his own particular line and go in for it with all the glorious enthusiasm of youth. There are so many special things to be learned in our time that nobody can hope to master more than two or three departments of instruction. There is one comfort, however. Man's capacity for assimilating information grows with the exercise of it.

Besides the university courses, various colleges are open. Then there are the summer encampment schools. Chautauqua is the mother and model of them all. Chautauqua is in fine force this summer. The third session of the Catholic summer school of America is open at Plattsburg, N. Y. This school is giving especial attention to ethics and labor questions. None of the schools can do better than to deal with these topics. The Pennsylvania university gives much attention to economics also. There is need of it.

At Lakeside, O.; at Bay View, Mich., and at Monona lake, Wisconsin, are numerously attended summer encampment schools. Colorado Springs has a summer school of science. Among the most interesting of these educational courses are those which deal directly with the perfecting of the human race morally. It has been said that if every human being obeyed strictly the golden rule that would be the final settlement of every vexed question known to the race. Professor Felix Adler's Plymouth (Mass.) School of Applied Ethics still flourishes. But in the west at Iowa college, Grinnell, Ia., has been started this summer a school of applied Christianity.

Doubtful Rumors.

Some time since the story was telegraphed over the Union that the gentle and beautiful Infanta Eulalie was living in poverty and obscurity in London. The truth was that she was not in London at all and not in poverty anywhere. It is most unfortunate that conscienceless knaves, miscalled correspondents, haunt the newspaper profession and send out wild and lying reports on any subject that strikes their fancy. Sometimes there is a thread of basis for their story; often not even that. If the story of the loss of the Walter Wellman polar expedition should, turn out to be false, there is hardly any punishment severe enough for the liars who forged the tale. If the anguish they caused the wife and family of Wellman and the friends of the other explorers counted for nothing with them in their desire to make a newspaper sensation, then the atrocity of their conduct ought to be brought home to them in some other manner. At any rate, it is by no means sure the travelers are lost.

The expedition was to cost $25,000, all of which the plucky newspaper man at the head of it was to earn with his pen. He expected to reach the pole by sledging over the ice and to return to the northern coast of Spitzbergen in time to sail southward before the waters froze up for the winter. He was not certain that he would reach the pole, but he was certain, he said, that he would be back in America by Thanksgiving. Let us still hope he will be able to redeem his promise. A relief expedition will of course be sent in search of him as soon as possible.

China and Japan are very nearly matched as to military resources. China will not fight in any modern war with tomtoms and stench balls. She has a navy of 30 vessels, many of them armed with Krupp guns. Only five of the ships are of the latest pattern. These are armored. Four are battleships, and one is a coast defender. China has also 19 cruisers. Japan's navy is more effective, consisting of 32 vessels, all of the modern type and carrying the most destructive guns. She has three coast defense ships armed with 12 inch French rifled guns. But Japan on the water is more than counterbalanced by China on land. China's army on a peace footing numbers 300,000, while that of Japan is only 73,000. China can at any time put 1,000,000 soldiers into the field, while the largest army Japan could muster would be one of 250,000 all told. China has nearly 400,000,000 inhabitants; Japan, 40,000,000. Still allowance must be made for the more aggressive and progressive spirit of Japan. Both her fleet and army are likely to be much more effective than those of China.

It will be a thousand pities if, after all, the money to build the Nicaragua canal cannot be raised in this country. It will not be our credit if the canal company be forced to accept the offer of British capitalists to furnish the money. If some of our selfish millionaires who are buying yachts, country estates and other properties in England and otherwise spending money like water to get into London "sassiety" had a spark of patriotism about them, they would have used some of their surplus wealth to construct this work which means so much to the United States. Our ten richest Americans could have built the canal out and out and scarcely felt it.

The appointment of Carroll D. Wright, labor commissioner, as chairman of President Cleveland's railroad arbitration committee is a guarantee that the spirit of justice and good will to all parties will pervade the investigations of the committee.

Since wartime we have not had such lively politics at Washington. The people watch the bear garden with great interest.

INDIANA NEWS.

Matters of Interest From Different Parts of the State.

Samuel Sells, near Fortville, was crippled for life by an accidental fall.

A daughter of James Sparks near Wilkinson, attempted suicide by swallowing concentrated lye.

The democracy of Cass and Miami counties have nominated Joseph Gray, of Cass, for joint representative.

A young ministers' training school has been organized at Mitchell, headed by the Rev. W. H. Kruisinger, of Elletsville.

Fire destroyed William Carroll's wheat crop, near Hartford City, together with the thresher and other property. Loss, $3,500

The congregation of the Christian church at Madison has extended a pastoral call to the Rev. W. M. Gard, of Knightstown.

In the oratorical contest at Farmland, under the auspices of the W. C. T. U., first honors were awarded to Robert Tomlinson.

Miss Julia Livingston, of Crown Point, has instituted breach of promise proceedings against Prof. George W. Christie, of Hobart, claiming $10,000 damages.

Miss Julia, seventeen years old, daughter of David Rife, of Wabash county, eloped with her brother-in-law, John Hettmansperger, a widower forty years of age, and they were married.

Charles Coombs, of Crawfordsville, a convict in the prison north for killing Walter McClure, in January, 1891, died this week. McClure and some companions were returning home from a dance, and in passing Coombs' house McClure caught hold of the fence and shook it. This awakened Coombs, who fired upon the group without waiting to investigate. The bullet struck McClure in the shoulder, resulting fatally within a few hours.

The Church of God of northern Indiana, southern Michigan and northwestern Ohio have organized an Educational, Sanitarium and Home association, which proposes the immediate establishment of a sanitarium and hospital, and later on the permanent endowment of a school and charitable institution. The Rev. A. S. Riggs, of Goshen, and Dr. Dowling and the Rev. W. N. Arnold, of Kendallville, were chosen an executive committee, looking to the location of the proposed institutions and other matters connected therewith.

The Kokomo Natural Gas and Oil company has a natural gas well which it can not control. Under the supposition that the well had gone dry the company undertook to pull the casing. About four hundred feet down the pipe broke in two, making it impossible to remove the lower portion or replace the upper. While pulling the tubing the workmen were driven away by an immense flow of gas, water and oil, which shot into the air and took fire. A lake was soon formed immediately surrounding the well, through which the gas constantly rushes. The company so far has found it impossible to put out the fire or stop the flow, and the well has developed into a dangerous nuisance. Apparently, there is no way of controlling it and it may be several years before the well exhausts itself.

Dr. W. S. Greene, colored, of Baptistown, near Evansville, established a colony about three miles away, which he named Greenville. Twelve buildings were constructed, which were tenanted by colored people, each family with its little plat of ground. The colony is prosperous and law abiding. The location, however, gave offense to the whites in the same neighborhood, and recently Dr. Greene has received numerous white cap notices. Two nights ago a systematic attempt was made to burn up the little village, the torch being applied to the fences and outbuildings. Several fences, a big hennery, two coal sheds, and other property were consumed, but the villagers succeeded in saving their dwellings after a hard struggle. As a guard against further incendiarism, an armed guard has been established, the colonists taking turns in standing picket duty. The colony has erected a church and school house, and made many material improvements.

For many years past it has been the aim of scientific chemists and physicians to produce a medical preparation which would be not only immediately beneficial in relieving various forms of headaches, but extremely pleasant and palatable to take. This result has been successfully arrived at by the Arnold Chemical Company, of Chicago, who have perfected by a continued series of careful experiments an effervescent compound known as Arnold's Bromo-Celery. This remedy not only contains those salts which act so marvellously on the nervous system, circulation and digestive organs, but also the active principle of Celery, so excellent in its effects upon the blood, brains and nerves.

All those who are afflicted with headaches due to stomach disorders, bilious ness, sluggish liver, torpid bowels, constipation, sleeplessness, brain exhaustion, nervous depression, mental excitement, late hours, alcoholic excesses, or other irregularities, are recommended to try Arnold's Bromo-Celery. They will return again and again to this excellent restorative and class it as one of the finest remedial agents of modern times.

Prices, 10, 25 and 50 cents. Of all druggists.

DRIVEN INSANE.

Sad Condition of a Farmer Who Was the Victim of Swindlers.

LIMA, Ohio, Aug. 9.—John Crane, a farmer, living a few miles south of this city, has been taken to the insane asylum. Several months ago a stranger bargained with Crane for his farm, putting up $50 to bind the sale. A week later another man appeared and offered Crane $2,000 more for the place than the first man and Crane agreed to sell to him. Then the first man reappeared and Crane gave him $550 to release his claim. The man who offered the larger amount never came back, and Crane brooded over the affair until he become insane.

WOMEN IN HOT WEATHER.

How They Can Keep Cool, Comfortable and Happy.

"THE NICETIES OF LIFE."

A Prominent Lady Talks Upon the Subject and Gives Some Very Valuable Advice.

"Talk about suffering from the heat! Why, even children do not suffer so much in hot weather as women do!"

She was a prominent member of the Executive Committee of a Woman's association that meets annually in New York, and she spoke very earnestly.

"No one but a woman can understand this; but all women know it. Every atom of a woman's body is governed by a law of its own and hot weather seems to fight every one of these laws. A woman's sensitive nerves are outraged by the heat. Her blood gets warmed up when she wants to be cool. The hundreds of nice things which are necessary to her happiness get soiled, rumpled or unattractive in some way. All this frets, annoys and causes her unhappiness."

"I am willing to admit what you have said, but can you offer any suggestions?" asked one of the lady's companions.

"Yes, I can. I would have women avoid fretting and worrying; keep as cool as possible, and above all things be careful of what they eat and drink. The best food for any woman or man either for that matter during hot weather, is something that nourishes and strengthens, with little or no effort on the part of the stomach. The only thing that will do this in every case is an artificially digested food, one that is digested before being taken into the mouth; and I know of but one predigested food, and that is Paskola. I have used it carefully and find it all that is claimed for it. It is as palatable as lemonade. It refreshes instantly. It nourishes in every case, and being already digested requires no effort on the part of the stomach in order to insure its assimilation. I know a great many ladies in the highest walks of life and who move in the best society who are using it every day and who never felt so well, looked so well, or were so well in their lives as they are now. I do not know anything about how it is artificially digested, although I understand it is because its nourishing starchy elements are mixed with vegetable digestive principles, but I do know that, judging by its effects, it does more for women, and especially during hot weather, than anything that was ever before known."

The above conversation is just as it occurred in the rooms of the committee, and if it offers any suggestions to other ladies we shall be glad.

Any up-to-date druggist will furnish Paskola. If you want to know how it works, send for free pamphlet to the Pre-digested Food Co., 30 Reade street, New York.

A SNAKE DROVE HER MAD.

It Hung for Several Hours Over a Sick Woman's Bed.

An aged lady named Mrs. Summerfield has been crazed by the awful experience through which she went a few nights ago, says the Philadelphia Times. Mrs. Summerfield is the mother of a wheat farmer living in Vernon, Texas, and has been ill some time with a throat trouble, which has nearly destroyed her voice. She was attended to bed on the occasion mentioned by one of her granddaughters, who, at the old lady's request, left the lamp beside the bed burning brilliantly.

The house was newly built, and is not quite completed, with the rafters of the roof still uncovered by any ceiling. During the night the old lady's eyes were attracted by some object moving along one of these rafters, and presently a large bull snake thrust its ugly head over and hung there, looking down at her.

She in all probability tried to summon some one, but owing to her affliction was unable to make herself heard. So perhaps for hours she lay with her terrified eyes fixed on the hideous shape overhead until, overcome with nervous fear, her mind began to wander. When found in the morning she was unconscious, and it was with difficulty that she was revived. Her first motion was toward the rafter just over her head, but this was thought only a part of her delirium, until all at once the snake ran down along the rafter, and then dropped down on the bed. The old lady screamed loudly, and again fainted, and when she finally regained consciousness it was seen that her terror had completely unhinged her intellect.

During the day she seemed quiet enough, but at the approach of night became so frantic that it was necessary to restrain her. The bull snake is not venemous, but is formidable and hideous enough to inspire repugnance in the strongest mind. On searching the rafters and roof of his house, Mr. Summerfield, after his mother's fright, found and dislodged no less than eighteen snakes of several varieties. This is their season of hibernation, and they seek the warmest spot at hand in which to lie until spring. Unless molested, they are usually harmless at this time, being too sluggish to move, and can easily be killed, but near a fire they thaw out and become aggressive if shut in.

STATE OF OHIO, CITY OF TOLEDO, } ss.
LUCAS COUNTY.
FRANK J. CHENEY makes oath that he is the senior partner of the firm of F. J. CHENEY & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.
FRANK J. CHENEY.
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.
(SEAL) A. W. GLEASON, Notary Public

Disastrous Search for Knowledge.

Several years ago a scientific wiseacre of Massachusetts who had never had the pleasure of meeting with a gypsy moth sent word to a friend in a far away land to send him a specimen. The friend complied, and the moth came duly to hand. It escaped from the naturalist, much to his disappointment and much to the sorrow of the Bay State ever afterwards, for the moth went forth and multiplied to such a degree that it has cost the State $200,000 in the past four years to carry on the fight against its progeny made necessary by its great destructiveness. Last year 4,000,000 trees were examined by a State commission, and 46,000 egg clusters were destroyed.

Beware of Cheap, Worthless Imitations.

Ask for Simmons Liver Regulator. Recollect that for malaria, biliousness, dyspepsia, constipation and headache it has no equal.

Warm, Indeed.

"I was very much touched by the warmth of my father-in-law's affection," said the young man who talks about his private affairs.

"Indeed. How was it expressed?"

"By the present of a ton of coal."

Important Facts.

If you have dull and heavy pain across forehead and about the eyes; if the nostrils are frequently stopped up and followed by a disagreeable discharge; if soreness in the nose and bleeding from the nostrils is often experienced; if you are very sensitive to cold in the head accompanied with headache; then you may be sure you have catarrh; and should (immediately) resort to Ely's Cream Balm for a cure. The remedy will give instant relief.

Sheriff's Sale.

Execution No. 2,096.

In the Superior Court of Allen county, state of Indiana.

Lemuel C. Paine vs Estella C. Stringer.

By virtue of an order of sale, to me directed and delivered by the clerk of said court, in above entitled cause, I have levied upon and will expose for sale at public auction, at the court house door in said county, between the hours of 1 and 4 o'clock p. m., of the 28th day of August, 1894, the rents and profits for a term not exceeding seven years, of the following described premises, viz:

Lots ninety-two (92) and ninety-four (94) in Williams' addition to the city of Fort Wayne, Allen county, Indiana.

Also lot ninety-three (93) in Williams' addition to the city of Fort Wayne, Allen county, Indiana.

And on failure to realize therefrom the full amount of the judgment, interest thereon and costs, I will at the same time, and in the manner aforesaid, offer for sale the fee simple of the above described premises. Taken as the property of the defendant to satisfy said order of sale.

A NEW ROAD.

The Tehauntepec Connects the Atlantic and the Pacific.

Affairs of the Office and Shop as Revealed by the Reporter's Note Book.

An Associated Press dispatch from Coalescoalcos, Mexico, is as follows: "Through trains are now being run between this port, on the Atlantic, and Salinas Cruz, on the Pacific coast, on the new Tehauntepec railroad. Local business is already heavy and it is expected that through traffic will increase very rapidly. Edward Bodette, formerly traveling auditor and commercial agent of the Mexican National road, has been appointed general freight agent of the Tehauntepec line. The general offices of the road will be located in this city."

MINOR MENTION.

General Manager R. T. McDonald, of the electric light company, is expected home today.

C. S. Knight, of the electric light works, has returned from a business trip to Detroit.

Ed Ames and Cheeny Knight left this morning for Danville, Ill., where they will install an electric light plant

H. C. Lehrman, machinist, and G. F. Horstmeyer, carpenter, of the Wabash shops, are off duty on account of sickness.

Blacksmith J. D White, of the Pittsburg shop, is sorely afflicted with an immense carbuncle in the arm pit. He is unable to work.

The passenger department of the Pennsylvania lines has asked for a differential on passenger business between Pittsburg and Cleveland.

Thus far but two charters of the Brotherhood of Locomotive Firemen have been surrendered on account of the late sympathetic strike.

J. E Muhlfeld, machinist; E. E. Larrimore and R. J. Develin, helpers, of the Wabash shops, will take positions on the road as firemen.

Thomas Sullars resumed charge of one of the planers in the factory of Rhinesmith & Simonson this morning, after an illness of three weeks.

It is stated that the Vanderbilt people have about decided to extend the Empire State express fast service to Chicago over the Lake Shore road.

The Bass Foundry and Machine Works will ship a 100 horse power Bass improved Corless engine to J. B. Walker, Brvington, N. Y., next Saturday.

Since the voluntary relief department of the Pennsylvania lines east of Pittsburg was organized, which was in 1886 the association has distributed in benefits $3 594,490 83.

Owen Schoonover, who had the misfortune to injure a finger so badly that amputation was necessary, resumed work in the Wabash yards this morning after an absence of six weeks.

Christian Miller returned from Indianapolis this morning, accompanied by his son, Fred. The young man has recovered from the effects of the sunstroke, which came near taking his life.

Joseph Harris, machinist in the Pittsburg shops, last night received a telegraphic message from Bellefont, Pa., stating that his father was lying seriously ill at that place. Mr. Harris left today for Bellefont.

Matters are getting into better shape with the Toledo, St. Louis and Kansas City. Business is improving, more trainmen are being employed, and at the shops at Frankfort, Ind., two hundred men are working full time.

The Bass works is building some locomotive cylinders for the Nickel Plate road. In flourishing times this foundry does a good deal in the way of building cylinders for railways, but lately there is not much doing in that line.

This was the banner shipping day of the week at the electric light works, the firm sending out machinery as follows: To Philadelphia, 3,000 light incandescent dynamo; Austin, Texas, three 80 light arc and three 3,000 light incandescent dynamos.

Ed Johnson, I. U. Hager and W. H. Morse, who served the Wabash as extra road foremen of engines during the strike, have been assigned to passenger runs on the road, as follows: Johnson, Toledo to Andrews; Hager, Andrews to Tilton, and Morse, Detroit to Ashley.

Machinist W. S. Wells found twenty-two of his fine chickens lying dead in the yard this morning From the tracks about the chicken yard he thinks a dog did the slaughtering. It will not be healthy for a strange dog to appear in the vicinity of Mr. Wells' home after dark hereafter.

In the practice game of ball at the electric light grounds last evening the regular Pennsylvania club beat the picked nine 8 to 2 The former club had three and the latter club four innings Battery for the Pennas, Daseler and Wilcox; for the picked nine, Rady, Thomas and Connors. The latter was catcher and did some fine work, notwithstanding the miserable help he had. The Pennas are practicing for a game with the Allegheny shopmen's club.

The position of general superintendent on the Iowa Central has been abolished. H. Voorhees, superintendent of transportation, has been appointed assistant superintendent, and J. H. Redman superintendent of transportation.

George Strausser and Miss Lizzie Hitzelman were married yesterday. The groom is a machinist employed at the Bass works and the bride is the daughter of the Broadway tailor. Mr. Strausser sent a box of cigars to his shopmates.

A wrench dropped from the top of a box car at the east shops yesterday and alighted upon the head of Henry Toenges, a car builder, who was passing at that moment. Mr. Toenges received painful wounds and will be off duty several days.

The Peru Chronicle says: "A great number of Wabash engine men, who were discharged through their interference with the company's interest during the recent strike troubles, have left the city, and many have secured employment on the Baltimore and Ohio."

The private car of President Diaz, of Mexico, which came north with the president and some of his friends while in this country, has been rebuilt at the shops of the Pennsylvania railroad company, and on Monday night left Jersey City en route to the City of Mexico.

The Pennsylvania, the Lehigh Valley and the New York Central now have telephone service between many of the principal stations, which is greatly relieving the telegraph wires. The greatest objection to the use of the telephone on important matters is that there is no written record.

"Frank W. Morse" is the name of a magnificent steam launch built at Racine, Wis., for service on the Tennessee river. The craft is owned by W. J. Reynolds, the contractor who built the Wabash's new Chicago-Detroit line, and it was named in honor to his personal friend, Master Mechanic Morse, of this city.

The Wabash official has appointed three men to instruct firemen in their duties. They are George W Munger, First and Second districts; C. H Townsend, Third and Fourth districts, and J. H. Wagner, Fifth district. These men will ride on engines over their respective districts and teach the new men in the art of steam making.

The local lodge of the American Railway union at Terre Haute has ordered off the strike, the order including the Chicago and Eastern Illinois road, which has hitherto been exempted. On applying for work the strikers have found that their places are filled and that there is no work for them. A party of striking Vandalia switchmen left yesterday for Omaha. Terre Haute is the home of President E V Debs.

"The key to success in avoiding railway strikes is the selection of good material for employes and the development of their morals. Such men do not make excessive demands and are reasonable in the negotiations of a settlement." Thus spoke a Pennsylvania railway official. He then added that the employes of the Pennsylvania lines were all men of good standing at their homes and most of them were members of some church.

F. P. Sargent, grand chief of the Brotherhood of Locomotive Firemen, has returned from the east to his headquarters at Terre Haute. While absent he effected a settlement between the firemen and the transportation department of the Richmond and Danville lines which was satisfactory to both parties. The reduction in firemen's wages proposed was 20 per cent. but he succeeded in convincing the officials of the road that the cut was too much. The firemen offered to accept a reduction of 10 per cent. and the officials consented.

Pittsburg trainmen report a disastrous head end collision between switch engines on the Chicago and Eastern Illinois road at Forty-seventh street, Chicago, last night. Two men were killed outright and others were injured. At the point where the collision occurred the Chicago and Eastern Illinois parallels the Pittsburg and a passenger train on the latter road was passing at the time of the accident.

F. B. Tyrel, the well known machinist, of the Wabash shops, has been appointed foreman of the company's machine shop at Decatur, Ill., and will move his family to that city. Mr. Tyrel has been a faithful employe and has the ability to fill a much higher position than the one given him. His many friends will be pleased to learn of his good luck.

Charles G. Sisson, who became very wealthy through the building of a number of railways, one being the Northern railroad, of New Jersey, died in August, 1874, leaving an undivided estate valued at $2,500,000, which, through the advance in value, is now worth $4,000,000. This large estate is now to be divided, twenty years after the death of the millionaire, much of it going to his grandchildren. Of the three executors named in the will but one is now living—John Hull Browning, president of the Northern railroad, of New Jersey. Only one of his children is now living.

The strike at Chicago has greatly interferred with the domestic arrangements of many railway officials. A. H. Polhamus, road foreman of engineers of the Pittsburg, a man who is greatly attached to his home, has been deprived of its pleasures almost constantly since the beginning of the strike. He has seen very little of his family in all that time, being stationed at Chicago. Last Monday, C. H. Walton, superintendent of the Chicago division of the Panhandle, was enabled to return to his home in Logansport for the first time in six weeks. He, also, was detained in the Windy City by the strike.

The shopman, who feels the necessity for a little recreation and change from routine life, yet is not financially able to take a trip which would keep him from his labors and at the same time require a considerable outlay of cash, will find the Wabash's Put-in-Bay excursion next Sunday the very thing he is looking for. Put $2 in your pocket for fare, pack in a paper box a few sandwitches, and thus equipped you can enjoy an outing that under ordinary circumstances would cost you $10 to $15. The trip includes a ride of three hours each way on the magnificent steamer "City of Toledo," one of the finest boats on Lake Erie. You leave Fort Wayne at 6 a. m. and return at 10 p. m.

STRIKE FUND HAS DISAPPEARED.

Clark, A. R. U. President at Indianapolis, and $1,400 Missing.

INDIANAPOLIS, Aug. 9.—The directors of the American Railway union were here yesterday to inquire into the disposition of the funds raised here during the strike, and it is said that $1,400 have been embezzled by the local officerf of the American Railway union and that President Clark is missing. The directors called upon the strike committee and asked what had been done with the books, and were informed that the local committee thought it best not to keep them and they had been burned. It is claimed that $1,400 raised here to assist the strikers has all been squandered and that no account of it whatever can be gained. President Clark, of the local union, has not been seen for two or three days. Many inquiries were made concerning him, but his whereabouts seem to be unknown. Great indignation is expressed by the strikers, who have lost their places permanently and were looking to the strike fund for relief.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida street, San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at Dreier Bro.'s and Co. drug store. Regular size 50c and $1.

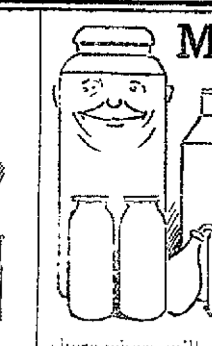

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise.—A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood.—Will drive Malaria from the system and prevent as well as cure all Malarial fevers.—For cure of Headache, Constipation and Indigestion try Electric Bitters—Entire satisfaction guaranteed, or money refunded.—Price, 50 cents and $1.00 per bottle at Dreier Bros. & Co.'s drug store.

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dreier & Bro.

40 YEARS THE STANDARD.

Milk Cans, pans, churns, bottles, everything which is used for milk, even down to the baby's bottle—these are things for which you need Pearline. With Pearline, they're cleansed more easily, more quickly more economically, and more thoroughly than with anything else known. The people who know most about milk say just that. We can't afford to print all the testimonials we hold. They're free expressions of opinion —in conventions, in papers, everywhere where milk folks have a voice. The enthusiasm about Pearline is genuine. And it's natural. For all kinds of washing and cleaning, nothing equals Pearline.

Beware Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, if your grocer sends you an imitation, be honest—send it back. JAMES PYLE, New York.

BRITISH YACHT WINS.

The Britannia Scores a Victory Over the Vigilant.

The Sixteenth Race Leaves the Record, Eleven Victories for the Britannia and Five for the Vigilant.

COWES, Isle of Wight, Aug. 9.—The Vigilant and Britannia started this morning in the race for the town prize of £100, presented by the inhabitants of the town of Cowes The Britannia got slightly the best of the start and won the race. The times of the two yachts at the finish were: Britannia, 3:17:55, Vigilant, 3:20.07. The Britannia won by two minutes and twelve seconds, without counting her time allowance, and by four minutes and sixteen seconds corrected time The victory of the Prince of Wales' cutter called forth a tremendous cheering from the Britishers and brought more into prominence the sullen demeanor of the spectators when, on Saturday, the Vigilant won.

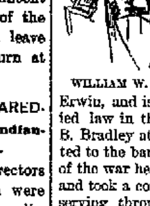

Emperor William, of Germany, on board the Meteor, followed the race with interest. The Prince of Wales was on board the Britannia with a number of guests and the Messrs Gould and Oliver C. Iselin were on board the Vigilant. It is admitted by the Vigilant's warmest admirers that her defeat upon this occasion was the sixteenth race in which the rival American and British yachts have taken part and the score now stands eleven victories for the Britanni and five victories for the Vigilant.

There's one tooth wash that ladies' pride,
Beloved by belles o'er every "wash" beside;
One dentifrice there is supremely blest,
A sweeter, better one than all the rest;
And you will find in every land the same
That SOZODONT'S its old, familiar name.

"THE DEFENDER OF LIBERTY."

That Is What Workingmen Call William W. Erwin, Counsel For Eugene Debs.

"The defender of liberty" is what the laboring people of the northwest call Lawyer William W. Erwin, who is counsel for President Debs and other indicted officials of the American Railway union in Chicago. He is a native of Erwina, N. Y., a town named after his ancestor, General Arthur Erwin, and is 52 years of age. He studied law in the office of Judge George B. Bradley at Albany and was admitted to the bar in 1864. At the outbreak of the war he enlisted as first lieutenant and took a company to the front. After serving through the peninsular campaign in the brigade of General Sickle he left the service and in 1866 removed to Nebraska, where he practiced law until the time of his removal to St. Paul.

WILLIAM W. ERWIN.

He was elected county attorney of Ramsey county in 1873 and the next year ran for state senator, but was defeated. He then abandoned politics and devoted himself so assiduously to the law that he soon had a wide reputation in the northwest. Many of his cases were those of poor persons against powerful corporations, cases in which the plaintiff had received injuries owing to the alleged negligence of the corporation sued. He was so successful in this line of work that his fame rapidly increased, and when the Homestead riots occurred the labor organizations of Minnesota sent him to Pittsburg to defend Critchlow, O'Donnell and Clifford.

These cases attracted the attention of the whole country. There were 16 indictments for treason, 30 for murder and 244 for aggravated riot and conspiracy, but the task confronting him did not in the least daunt "Big Bill" Erwin, as he is called in St. Paul. He went to work with a will, and after a herculean legal effort forced the state to abandon the prosecution after three trials without a conviction. His success was so pronounced that when Debs et al. recently ran afoul of the United States district courts in Chicago Erwin was at once secured as counsel for the accused men. He is a tall, well built man of commanding presence and is so eloquent that he can talk the average jury into doing almost anything. He is a devotee of athletics and is ex-president of the St. Paul Cricket club and president of the Minnesota Athletic club and Mississippi Rod and Gun club.

An Essential.

"Is your daughter fitting herself for the operatic stage?"

"Yes; she will be ready to appear when she finishes the study of the city directory."

"What has that to do with her stage work?"

"Mercy, everything! She's hunting up a name that can't be pronounced."—Chicago Inter Ocean.

Striving to Please.

Hotel Clerk (at the summer resort hotel)—The man in 98 complains about this bill.

Proprietor—He does, does he? Well, you just make it out again on another sheet of paper and add in an extra charge for doing it. We're not going to have any grounds for complaint in this hotel. Not much we ain't!—Chicago Record.

Conclusive.

Exasperated Young Mistress (after a wordy argument with her cook)—Why, Bridget, it's perfectly absurd! Either you or I must be crazy.

Bridget (proudly)—Sure, and I would not be so bold as to think ye had no more sinse than to keep a crazy cook.—

BITS OF HISTORY.

THE first Christian school was established by the Pantæus in 181.

GOLCONDA mines are now exhausted. At one time 60,000 men were employed in them. When the Sultan Mahmoud, who reigned in 1177-1206, died, he left in his treasury 400 pounds' weight of gems taken from the mines at Golconda.

THE first aerial voyage was made Sept. 19, 1783, by a sheep, a cock and a duck to a height of 1,500 feet. The first human traveler through the air was M. Francois Pilatre de Rozier, who mounted the following month in a free balloon.

THE earliest known lens is one of rock crystal unearthed by Layard at Nineveh. This lens, the age of which is measured by thousands of years, now lies in the British Museum, as bright and as clear as it was the day it left the maker's hands

IN the appalling catastrophe which destroyed the city of Lima and its harbor, Callao, in Peru, in October, 1746, the earthquake shocks were repeated every seven or eight minutes, and over 200 of the most violent kind were counted within twenty-four hours. In the great earthquake of Caraccas, on the 26th of March, 1812, fifteen shocks were felt on the first day, and they continued numerous every day until the 5th of April following.

THE oldest dressmakers' bill in the world has been discovered on a Chaldean tablet, dating 2800 B. C. It has an entry of "ninety-two pure vestments for the priests." Among the items are "ten white robes of the Temple, eight robes of the house of his lady, ten collars of the house of his lady, ten pair of gold collars, two white robes and four scented robes," also "two winders," probably scarfs for binding about the waist Before this the oldest account of this sort was on a tablet dating ver 1400 B. C.

THE Revolutionary War, 1775-1783, cost the United States $135,193,703. The Colonies furnished 395,064 troops. The War of 1812 cost $107,159,003; the number of troops estimated at 471,622. The Mexican War cost $100,000,000; the number of troops engaged was 101,282. The Civil War, 1861-1865, cost $6,189,929,900, according to the official records; the number of troops engaged on the Union side was 2,859,-142, the total loss 460,503; the number engaged on the Confederate side was about 493,000 and loss about 300,000.

SICK-ROOM DON'TS.

DON'T appear anxious, however great your anxiety.

DON'T let stale flowers remain in a sick chamber.

DON'T have the temperature of a sick-room over 70 degrees.

DON'T jar the bed by leaning or sitting upon it. This is unpleasant to one ill and nervous.

DON'T ask a convalescent if he would like this or that to drink, but prepare the delicacies and present them in a tempting way.

DON'T neglect during the day to attend to necessaries for the night, that the rest of the patient and the family may not be disturbed.

DON'T be unmindful of yourself if you are in the responsible position of nurse. To do faithful work you must have proper food and stated hours of rest.

DON'T throw coal upon the fire; place it in brown paper bags and lay them on the fire, thus avoiding the noise, which is shocking to the sick and sensitive.

DON'T light a sick-room at night by means of a jet of gas burning low; nothing impoverishes the air sooner. Use sperm candles, or tapers which burn in sperm oil.

DON'T permit currents of air to blow upon the patient. An open fire-place is an excellent means of ventilation. The current may be tested by burning a piece of paper in front.

DON'T give the patient a full glass of water to drink from unless he is allowed all he desires. If he can drain the glass he will be satisfied; so regulate the quantity before handing it to him.

DON'T forget to have a few beans of coffee handy, for this serves as a deodorizer, if burnt on coals or paper. Bits of charcoal placed around are useful in absorbing gases and other impurities

DON'T allow offensive matters to remain; in cases of emergency where these cannot be at once removed, wring a heavy cloth, for instance, like Turkish toweling, out of cold water, use it as a cover, placing over this ordinary paper. Such means prevent the escape of odor and infection.

ODD, QUEER, CURIOUS.

THE Isle of Man has no pawnshop.

THE cremation of the late King of Siam cost £80,000.

MORE people die in spring than in any of the seasons.

IRELAND is larger than Scotland by 12,000 square miles.

THE Turkish cavalry is admitted to be the finest in all Europe.

THE takings of London theaters and music halls exceed £1,500,000.

ONE pound of sheep's wool is capable of producing one yard of cloth.

RUSSIAN farmers hold an average of twenty-seven acres to each family.

IT would take a snail exactly fourteen days, five hours, to travel a mile.

IN the space of one minute the polypus can change its form a hundred times.

SEVEN MILLION persons are employed in the cultivation of the vine in France

EIGHTY of the towns in Great Britain supply the names of 100 towns in America.

THE Singalese, after extracting the honey from the bee, chew up the insect itself

THE Australians have more churches in proportion to population than any other people.

SOME of the houses in Berlin are numbered with luminous figures, which are easily visible at night.

AT the beginning of the eighteenth century people were hanged in Great Britain for the illicit manufacture of salt.

THERE are over 6,000 persons fed three times a day at Domna-Bugtch Palace while the Sultan of Turkey is here.

TWO HUNDRED THOUSAND

Men Engaged in the Liquor Business in New York State.

The great influence which the liquor men exert upon politics is easily explained by the fact that nearly every person engaged in the business is a man and has a vote. The number thus employed is enormous. A conservative estimate places the number of men engaged either directly or indirectly in New York state alone at 200,000. There are 7,700 licensed liquor saloons in New York City, 3,000 in Brooklyn, 2,200 in Buffalo, 950 in Albany, 850 in Rochester, and 700 in Troy, a total of 15,400 in the six biggest cities. There are 4,500 licensed saloons in the other thirty cities of the State and 8,000 in the unincorporated townships, a total of 28,000.

Figuring at two, the average number of barkeepers to a saloon, the result is 84,000 proprietors, barkeepers and helpers. To this total must be added the following:

There are 650 breweries in New York State, and the number of men employed in each, workmen, superintendents, book-keepers, collectors, cashiers, drivers, hostlers, chemists, coopers, and engineers, averages about eighty men, making a total of more than 50,000.

There are 450 distilleries in the State, having an average working force in all departments of about thirty men in office and factory, making a total of about 13,500 men engaged in the wholesale branch of the liquor business.

Then there are the dealers in saloon-keepers' fixtures, their clerks, drummers, and workmen; there are those who make a business of providing the free lunches; there are the bottlers, a large class; the manufacturers of and dealers in glassware, saloon mirrors, beer pumps, and cork-screws, and the makers of advertising signs and ornaments. This about includes the domestic beer and liquor interest of the State and those interested and affiliated with it. There is to be added the foreign import trade in wines, champagnes, ales, spirits, liquors and brandies, and the agents, clerks, and salesmen engaged in it. With these additions the total number of men in the wine, liquor, and beer trades in New York State, or directly connected with them, does not fall anything short of 200,000. The business is peculiar in this, that it is almost the only one of large dimensions in which, from the nature of it, women and minors are wholly excluded. The liquor business is conducted almost exclusively by men, and practically by citizens, and to this fact is attributable, in part, the large influence which liquor men exercise in politics, for this is pre-eminently a case where every worker has a vote—if not more than one—through the influence which he is able to exert. The number of breweries in the United States is 1,050, and of distilleries, 4,791. The total in Germany is 25,000, and in Great Britain 16,000.

A VICTIM OF BARGAINS.

This Man Is a Prey to the Mania of Economy for Good Reasons.

"I am a victim," began the man with the long hair, as he unfolded the newspaper and dropped into a seat on a train beside an acquaintance, says the New York Herald! "I am a victim of my wife's taste, enterprise and economy.

"But, I say, old man, you ought to get a hair-cut."

"That's what I say, but by wife won't have it. She says I look more distinguished with long hair."

"Say, I never saw you with a red tie before. You were always very particular about those things?"

"I know, I know!" said the other wearily, "I thought I had taste and I think so yet, but what am I going to do? This tie," and he gave it a savage prod with his forefinger, "was purchased at a sale—39 cents it cost—and I have to wear it to prevent a row. My wife says it looks swell.

"See these cuffs? Well, they are twelves, and my size is ten and a half. They came off the bargain counter, too, at the rate of two pairs for 33 cents. Cheap? But I have to put tucks in them so they will fit inside my coat sleeves."

He gradually warmed up to his subject. "You ought to see my underclothing. Job lots, every piece; fragments Some are too large and some are too small. See this hat? It came home in pink paper and cost $1.93. I wear a seven; this is seven and three-quarters. There is one morning and two evening newspapers in the band, so it will fit."

"But it was a bargain, sure. My hats cost me $5. You ought to be glad you're married. You must be saving money at that rate."

"Bargain? Bah! Don't talk to me of bargains. I'm sick of the word. I hear of bargains from morning to night, and sometimes during the night. I shouldn't be surprised if my wife should pick up a tombstone because it was cheap and would have to be used some time.

"And as for saving money! Whew! All the surplus cash goes for bargains. She has two trunks full of bargains that she says will come in handy some day. I live surrounded by a junk-shop, but for the sake of peace don't dare to say a word."

He leaned slightly forward as he spoke and there was a sharp click. He put his hand around to his back with a pained expression.

"What's the matter? Hurt yourself?"

"Oh, no," he said grimly. "Two of the patent suspender buttons bought at a bargain-counter have parted the ways and my 22-cent suspenders have broken. Say, you haven't a safety pin or a couple of feet of cord, have you?"

HE STOPPED A PANIC.

Millionaire Armour's Wonderful One-Day Record in Chicago.

Philip D. Armour, of Chicago, is an indefatigable worker. Here is a record of one day's work during the panic time of the summer of 1893. Chicago suffered then as the rest of the country did under the severe stroke of depression. But Chicago had something more than her business reputation to maintain. There was the exhibition. No white feather should be shown, for the White City's sake. Still, in that trying time, it was courage like Armour's that saved the exhibition from passing into the hands of a receiver. Chicago stood together, and with true civic zeal saved the threatened misfortune and enabled the World's Fair to pass on to its triumphant conclusion. One morning Armour learned at his office that in the distress of the hour a "run" had set in upon the Illinois Trust and Savings Bank. "This must be stopped," said he. There were two reasons for his zeal: first, the maintenance of the general credit of the city, which would be shaken in the probable event of "runs" upon the banks becoming contagious; second, his eldest son was a director in the assaulted institution.

Armour quietly left his office and mixed with the throng in front of the bank. He went about among the depositors and pledged his own credit to induce them to leave their funds where they were. He remained in the crowded street all day and personally persuaded hundreds of the depositors to return to their homes. At the end of banking hours he arranged for a meeting of prominent Chicago men, to be quietly held the next morning, to grapple with the disasters which threatened the city. He cabled to London and bought half a million dollars in gold on his own account. Then he drove to the Armour Institute, to inspect the equipments then being put into place, and he serenely asked his usual question, "Is anything wanted?" On the way out he learned that the little daughters of an employe were dangerously ill with diphtheria. He went for his accustomed drive and for his almost daily call at the homes of his sons. Then he went home to dinner, and by 9 o'clock he was soundly sleeping, as if nothing had happened. The next morning he walked to his office, and on the way left $50 for the stricken family of his employe; he transacted his own business as calmly as ever; went to the bank again, turned away more depositors; and then left for the Mission Hall to play with the little children there. Meanwhile, his action in the crowd, and his purchase of gold, had set an example for other men; confidence began to set in once more, the tide was turned.

Royal Baking Powder
ABSOLUTELY PURE

A RUSTLING COLLECTOR.

He Got the Money, But It Took Some Time.

"When I was a youngster of 17," said a successful business man, "I got a job as collector with a man who was about as strict a martinet as I ever saw. He insisted on everything being done just as he said, and there were times when life was verily a burden, but I stuck to him. One morning he called me up and handing me a bill on a man I knew, he said for me to take it around and collect it

"'It's one of our standbys,' he said, 'and every collector I ever sent to him reported him absent or not findable or something. Now you go and don't come back here till you see him.'

"'Do you mean that?' I asked, as two or three clerks looked up.

"'You know me,' was all he said in reply, and I went out after my man.

He wasn't at home, the people said, and wouldn't be for six weeks. So I stuck the bill in my pocket and went off up the country for a visit. The old man sent after me half a dozen times, but my folks could only tell I was out of town, and I never paid any attention to a letter got from the boss, but went on enjoying myself. Then I came back and had a visit with some other friends, and at the end of six weeks I called on my man again with the bill. I found him at home and told him what I had done and he paralyzed me by paying the bill, with interest. Two hours later I stepped into the boss' office.

"'There,' I said, before he had time to gather his wits, 'is the amount of your bill and interest. He was out of town for six weeks, and I couldn't see him before. You told me not to come back till I did see him and I was obeying your instructions. I had a rattling good time and the house owes me six weeks' salary.'

"The old man gasped, got blue in the face and I thought he was going to explode; but he didn't; he gulped it all down and stuck out his hand.

"'Young man,' he said, 'you ought to have been a soldier. I am going to put you in charge of the collection department and double your salary,' and," concluded the merchant, "when I was 25 I was a partner."

HARPER'S PICTORIAL HISTORY —OF THE— CIVIL WAR.
PART 16. NUMBER 1.
Size of Pages: 16x11½ inches. Number pages: Over 830. Pages in each part: 32. Price of each part: only 10 cents. Number of pictures: over 1000 and all of the history besides.
Three coupons of different dates and 10 cents secures each part.

May 18, 1849.

To The Editor:

Volume No. 5 of Harper War Book just came, and it surprised me greatly to find the large colored map. Accept thanks for your promptness. I thought the other parts couldn't be beat, but they seem to grow better. If others appreciate the value of what you are giving for only 10 cents, you must sell a host of them, for if anybody once sees these War Volumes they must be as much surprised as I have been at so much, and so good, for such a low price. You deserve d vote of thanks for what you are doing. The gooa done by placing this great Harper history of the civil war in reach of every man, woman and child cannot be calculated.

Yours very truly,
F. B. D.

Fastest Tires

ON EARTH.

It Makes Us Laugh Ha! Ha!

"THEY SAID"

That Single Tube Tires are fastest—

but Riss thought not—proved it by riding a World's record mile in 1 51 4-5 on double tube clincher "G. & J. Tire."

That Double Tube Tires are slow—

but Cooper and Berthel "nailed" that one by establishing new World's Road Records from 5 to 50 miles on double tube "G. & J. Tire."

That Clincher Tires are heavy—

and yet the new "G. & J. Racing Tires" weigh only 1 lbs. per pair.

That a Light Wheel must have wood rims and cemented tires—

but Rambler makers have turned out 17 lb. pairs fitted with steel rims and clincher "G. & J. Tires." No rims. No glue. No wires.

That Steel Rims are not fast—

and yet they hold the World's Records for one mile standing start, one mile flying start besides these splendid World's Road Records.

Pardon the Repetition, but how would you prove it otherwise?

G. & J. are the Fastest Tires on Earth.

At Chicago—Chicago, 11; Cincinnati, 14 At Boston—Boston, 10; Philadelphia, 18 At Washington—Washington, 12; New York, 10

William G. Stahl, the popular mail carrier, wore a smile of unusual dimensions this morning, while he greeted the citizens on his route with a cordiality that bordered onto hilarity. Had he been addicted to over indulgence at the bowl the people would have concluded he was intoxicated and thought no more about his apparently excessive happiness. But William never drinks and they were puzzled. Later in the day the mystery was solved Mrs. Stahl presented her husband with a bouncing baby last night and this is the cause of all his happiness Mr. and Mrs. Stahl reside at No. 140 South Lafayette street

SMALLPOX.

A Case Reported Near Warsaw in This State.

Physicians report a genuine case of smallpox near Atwood, Ind., about five miles west of Warsaw. The patient is five years old, and is a granddaughter of Mr. L Plummer. She is supposed to have contracted the disease while visiting in Michigan The county board of health has taken steps to prevent a spread of the contagion.

Berries in Syrup

Is cheap enough to make pies of. Strawberries, Raspberries and Blackberries, in large cans, 10 cents, for a short time only, at the

PRINCESS CASH STORE.

WILL BE ANNEXED.

South Wayne to Become a Part of This City.

All Arrangements Have Now Been Satisfactorily Made and the Council Will Act Next Meeting.

Last evening in the office of the board of public works that body, together with the water works trustees, the judiciary and water works committees of the city council and a number of South Wayne citizens met for the purpose of discussing the matter of the annexation of that suburb to this city.

A few weeks ago an effort was made to bring this about, but the South Wayne citizens were not yet ready on account of the shape of some of their municipal affairs. The result of last night's meeting, however, was perfectly satisfactory to both parties and at the next meeting of the city council that body will be recommended to annex South Wayne. This can be done at once, as the ordinance has been read twice and also published.

South Wayne will come into the city with no debt of considerable amount except the $15,000 bonded indebtedness for their new waterworks system The suburb has about 3,000 inhabitants within its limits and taxable property to the amount of over $1 000 000 There will be no changes in the waterworks pumping house because of this new drain on the system for the trustees say that the engines and supply of water are both adequate to the demand. The South Wayne system will be connected with the six-inch main on Creighton avenue and the trustees will lay a twelve inch main on Pontiac street to connect with the South Wayne system. This, it is said, will give the new part of the city a copious supply of water for domestic purposes and for fire protection.

PERSONAL PARAGRAPHS.

Said About Fort Wayne People by Other Papers.

The Findlay, Ohio, Republican says: "Edward J Ritchie, of Fort Wayne, is the guest of his uncle, S. V. Ritchie, on North Main street."

The Elkhart Daily Journal says: "Mrs. George Nichols, of Fifth street, entertained her lady friends last evening in honor of Mrs F. T. Simpson, of Fort Wayne, and Mrs. Herrick, of Anderson."

The Bluffton News says: "Mrs. A. M Boleman, the guest of Mrs Hupp, returned to Fort Wayne today."

The Kendallville Sun says: "Mrs. Wells and Miss Sharp, of Westminster seminary, Fort Wayne, are guests of Mrs. S. Flint.'

The Warsaw Daily Times says: "Miss Lottie Roban and Miss Laura Walters, of Fort Wayne, are the guests of the Notzger sisters—Blanche and Vinnie—of this city."

The Columbia City Post says: "Chas. Hood and wife, of Fort Wayne, arrived in the city Monday to visit relatives."

The Laketon correspondent says. "Ansel Lukens and Miss Mercy Lukens are spending the week at Fort Wayne, visiting relatives."

The Wabash Plain Dealer says: "John Fawley, of Fort Wayne, was in the city yesterday, on his way home from Anderson, where he attended the reunion of his old regiment, the 130th I. V. I."

THE SUPREME COURT.

Many Cases on the Docket—Tolleston Case.

When the supreme court begins its September session, the number of cases awaiting consideration will be fifteen hundred. Many of these will not be taken up for more than a year. Among the important decisions to be handed down, probably in September, is one on an appeal from the Lake county circuit court. The case is known as the suit against the Tolleston club of Lake county, in which the state seeks to recover possession of 2000 acres of land. The Tolleston club is composed of Chicago men, who hunt and fish. According to the argument of the attorney general, the land used by the club belongs to the state. The tract involved is worth fully $100,000, and in northern Indiana much interest attaches to the case.

HIGHEST HONORS GIVEN

To Dr. Price's at the World's Fair.

(Chicago Tribune.)

For leavening power, keeping qualities, purity and general excellence the World's Fair jury decided that Dr. Price's Cream Baking Powder had no equal. On each of its claims it was awarded a first prize or a diploma. All the baking powders entered for prizes were subjected to a most exhaustive examination, and the jury was the best equipped to make the decision of any ever got together. Their verdict was supported by the testimony of Dr. H. W. Wiley, chief chemist of the United States Department of Agriculture at Washington. Dr Wiley is an expert on food products and the highest authority on such matters in America. This verdict settles a long debated question as to which among the many baking powders is the best.

A NEW LOCATION.

Al. Hazzard Purchased the E. & O. Cigar Factory and is Now Located at 11 E. Main St., up Stairs.

Mr. Hazzard has for several years been the foreman of the E. & O. factory and since its purchase has moved to his present location. He is an old and experienced cigarmaker and one of the best judges of tobacco in the west. His aim is to make the best brand of cigars in the city and his National is winning favors rapidly.

CONTINUES BUSINESS

Notwithstanding the Defalcation of the Cashier.

ALTOONA, Pa., Aug 9.—The Second National bank failed to open this morning A notice on the door signed by National Bank Examiner Miller, says "This bank will not open for the transaction of business until further notice." The examination of the accounts of the defaulting cashier is still in progress. The amount of shortage is now supposed to be larger than was first given out.

PRACTICALLY BROKEN

Is the Strike of the Omaha Butchers.

Deputy Sheriffs Break Up the Picket Lines of the Strikers and Drive Them Away.

OMAHA, Neb., Aug 9.—Sheriff Drexell sent 100 deputies to South Omaha at an early hour this morning, and as a consequence there was no trouble when the new men went to work in the packing houses The deputies broke up the picket lines of the strikers and escorted the workmen to the houses in squads. The strikers stood around at a distance and hooted and jeered, but they did not offer to do anything violent. A number of the old men returned to work under the protection of the officers. All of the houses began killing in spite of the threat of the managers that they would do no work until the militia had been called out. It is the general belief that the strike is now practically broken.

MORRIS, Ill., Aug 9.—The coal strike which began April 12, and has prevailed in Grundy county up to the present time, crippling all industries and branches of trade and driving thousands to the verge of starvation, was officially declared off this morning. Deputy Sheriff Alsdurf, who has been stationed at Carbon Hill with a large number of deputies, telegraphed Sheriff Daniels that the strike had been declared off and asked that conveyances be sent for the removal of his men, the situation being no longer considered dangerous.

TWO DIVORCES

Commenced in the Courts of the City—Other Cases

Jacob F. Keyser has been appointed executor of the last will of Jacob Smith.

William J. Sterlin sues for a divorce from Dellis Sterlin. J. H. Aiken is attorney for the plaintiff.

Lina S Light filed proceedings yesterday to obtain a decree of divorce from Edward Light She asks $300 alimony. A. H Bittinger is attorney and in the complaint alleges cruelty.

Clarence Ripley, one of the prisoners in the county jail, has been taken to Wabash to attend the funeral of his father, who was killed in an accident at Alexandria.

The Black & Closson company have been given a judgment in the superior court against the Crescent Paper company for $3,000

Congressional Nominees.

BALTIMORE, Md., Aug. 9.—The state prohibition convention at Glyndon park has nominated congressional candidates as follows:

Second district, D H. Parker, Baltimore; Fifth district, Col J. C. Lee, of Prince George's county, for the shorter term and Wm. H. Silk, of Andrundell, for the long term Sixth district, Albert E. Shoemaker, Montgomery county.

Beaten by an Unknown.

GOLDEN, Col., Aug 9.—W. H Copple, the world's champion 200-yard runner, was beaten in a 200 yard race here yesterday by an unknown, who gave his name as Adams, but is supposed to be Jack Gibson, ex-champion runner of England. Adams had six feet start and won by four feet in nineteen and one-half seconds. Several thousand dollars changed hands on the result.

There Was No Fight.

LONDON, Aug 9.—A dispatch to the Times from Tien Tain dated August 8 says Col. Von Hannekin's deposition which was read before the court of inquiry appointed to investigate the details of sinking of the Kow Shung confirms the previous reports of the affair and denies that there was any fight between the Naniwa and the Chih Yuen.

Go With Us Around The World.

We offer to our subscribers the most beautiful art work ever published at a merely nominal cost. This is an entirely new work, every plate being made especially for it. It is called

"FAMOUS PAINTINGS OF THE WORLD."

It is a collection of PHOTOGRAPHIC REPRODUCTIONS OF GREAT MODERN MASTERPIECES. It contains specimens of the great paintings of all art-producing nations and includes ONE HUNDRED OF THE MOST NOTABLE PAINTINGS at the

WORLD'S COLUMBIAN EXPOSITION.

It exemplifies the most ATTRACTIVE, INTERESTING, PURE and INSPIRING qualities of contemporaneous art. It contains a superb introduction by the greatest living novelist, GEN. LEW. WALLACE.

GEMS OF MODERN ART

Reproduced by the perfected half-tone process, having the appearance of the most perfect photographs. So large a collection of photographs of paintings could not be purchased for less than $1,000, and yet these photographic reproductions are offered to the public at the insignificant price of TEN CENTS for each portfolio.

Every picture is described by the brightest and best of America's writers on art subjects. These descriptions are not technical or prolix, but bright and interesting.

The materials for this publication have been gathered out of the most Famous Galleries and finest Private Collections in the Old World and the New.

All eminent artists are represented, but the minor artists and young aspirants for artistic honors—whose names are not yet household words have not been overlooked. The Committee of Selection have often chosen a meritorious and pleasing picture by a comparatively unknown artist in preference to an unattractive subject by a painter of prominence. This magnificent art work is in itself a

Home Gallery of Famous Masterpieces.

Do not fail to secure the first portfolio at once. The first Portfolio contains sixteen reproductions of great paintings, and also the magnificent introduction by GENERAL LEW. WALLACE.

All the future portfolios will contain sixteen reproductions of MASTERPIECES OF MODERN ART.

OFFICIAL REPORT.

DOLE RECOGNIZED.

President Cleveland Forwards His Congratulations.

The United States Recognizes the New Hawaiian Government and Its Minister to This Country.

Washington, Aug. 9.—A letter of congratulation and greeting from President Cleveland in the name of the United States, is on the way from Washington to President Dole of the Hawaiian republic. The recognition of the new republic was finally decided upon this week and the message was framed and mailed yesterday through the regular channels.

Although the customary secrecy which attends diplomatic matters has surrounded the relations of the United States with the Hawaiian republic since that country assumed its form of government, it is learned on the best authority that there has never been any doubt of President Cleveland's course in the matter and of his recognition of the new government of Hawaii as a defacto government.

A few days ago a letter was received from President Dole conveying the formal announcement of the proclamation of the republic and the inauguration of the new government. This letter was laid before the cabinet and has been under consideration while the house committee on foreign affairs was debating whether it should report a resolution for recognition.

With the letter of greeting to President Dole, which, of course, passes through the hands of Minister Willis, was sent a letter to Willis ratifying his action in provisionally extending the usual recognition to the republic. Mr. Frank P. S. Hastings, who in the absence of Minister Thurston is charge d' affair at the Hawaiian legation here, has had an interview with Secretary Gresham, and was told that he had been formally recognized as the representative of the new government.

Chairman McCreary, of the house committee on foreign affairs, says that it is not customary to give publicity to diplomatic correspondence until it has reached its destination. Consequently the letter to President Dole will not be made public until sufficient time has passed for its reception, after which a copy will be forwarded to congress with a copy of the message received from him. This is the usual course of diplomatic procedure, but the fact of the existence of the correspondence having become known may induce the president to make it public.

There is a parallel between Brazil and Hawaii on these latest developments. Soon after Brazil had changed to a republican form of government a resolution was introduced in the house by Mr. McCreary, now chairman of the foreign affairs committee, for recognition, the democrats thinking that President Harrison delayed action unreasonably. Before the committee could take action on the resolution, however, congress was notified that the president had recognized the new government.

It is stated by the friends of the administration that at no time has the president entertained any thought of withholding recognition beyond a reasonable time, nor has he any desire to leave President Dole and the other members of the administration long in doubt as to his views and purposes with respect to the new government.

ELOPERS COME TO GRIEF.

Mrs. Amelia Allen Traces Her Recreant Spouse to LaPorte.

La Porte, Ind., Aug. 9.—For some time the officers here have been in receipt of letters from Mrs. Amelia Allen, of Three Rivers, Mich., charging that her husband, William H. Allen, had run away with another woman and was living in this city. An officer finally located Allen, and Mrs. Allen was promptly notified of the fact. She lost no time in coming here, and this morning had Allen arrested on the charge of adultery. He was given a hearing and held to the circuit court in $1,000 bonds, under which he went to jail. Mrs. Allen is wife No. 4. Two of the previous ones were divorced and the other died. She says he is a great fraud, but is willing to forgive him for the money that is in it if he will only abandon the other woman and stay with her. Allen is an old soldier and gets the highest pension granted, $72 per month, for total incapacity to earn a living. He claims to be epileptic, but the woman says he only has fits when he wants them.

ELOPES WITH AN AERONAUT.

Grace Shepherd, Sixteen Years Old Travels With George Delmont.

Muncie, Ind., Aug. 9.—Several weeks ago Grace, the sixteen-year-old daughter of William Shepherd, disappeared. It was learned a few days ago that a girl accompanied George Delmont, the balloonist, from here, and that she was posing as his sister and being advertised to make balloon ascensions. Since the death of Tillie Sheldon at Anderson, by falling from a balloon, the parents of Miss Shepherd have been very much alarmed. They also learned that Del mont had a family in Columbus, Ohio. Yesterday he was located at Marion. The girl will be brought home and the man probably arrested.

Fleming Gets a Place.

Washington, D. C., Aug. 9.—George B. Fleming, of Fort Wayne, Ind., who was removed from his position as special pension examiner at Boston on July 1, was yesterday appointed to a clerkship in the pension office at $900 a year. Congressman Enloe, of Tennessee, secured the appointment for Fleming. The latter was the principal witness in the investigation of Pension Commissioner Raum, which was conducted by Congressman Enloe.

SHOT HIS SON-IN-LAW.

The Murder of Christian Wesner at Lebanon, Ind.

He Was Jealous of His Pretty Wife and This Led to Trouble and His Killing by His Father-in-Law.

Lebanon, Ind., Aug. 9.—On May 21, 1893, Judge Christian S. Wesner was shot and killed in the Danville, Ind., court room by James Coley Brown, after making the argument of his life. His dying words were, "God pity my poor boy," and at 8 o'clock last night that same poor boy, Christian S. Wesner, jr., was murdered by his father-in-law, James Livingston.

The cause of the trouble dates back to the time of Wesner's marriage, three years ago. Wesner was very jealous of his pretty wife and this led to many quarrels. A short time after his marriage Livingston attempted to censure his son-in-law and was hastily cut about the face in return. Since then they have had numerous quarrels and last night's trouble was not unexpected.

Tuesday night Wesner went home and drove his wife, mother and sister from the house. They took refuge at the home of Mrs. Kise, a neighbor, and yesterday morning sent for Deputy Prosecutor Winton A. Dutch, who prepared warrants for Wesner's arrest, but the women were afraid to sign them, as Wesner was very abusive and had often threatened their lives.

Wesner remained the sole occupant of the house that night and part of the day. Last evening he began a search for his wife and with that view went to the home of his father-in-law on West Busby street.

As he opened the gate Livingston appeared at the door and asked him to leave. He replied that he had come for his wife and was going to have her, whereupon Livingston reached behind the door and secured a double barreled gun and with the remark, "I told you I would fix you," fired both barrels into the body of his wayward son-in-law. His victim fell to the ground and cried: "Jim, you have killed me," to which the murderer replied: "I don't give a ——if I have"

His wife, who was hiding in the house, hearing the shots ran to the side of her now dying husband, and at the sight of his wounds fell prostrate across his body. She quickly recovered herself and refused to leave him.

Coroner Porter was sent for, and Deputy Prosecutor Dutch took the man's dying statements. He was removed to his home on North East street. He received the entire contents of both barrels of the gun and died at 10 o'clock last night.

Livingston was immediately arrested and lodged in jail. The only thing he will say is: "I am sorry, but I had to do it." Young Wesner was a remarkably bright young man and quite pleasant when not under the influence of liquor, but when drinking was quarrelsome and considered a dangerous man. He had been in numerous scrapes and was quite handy with a gun. He was under indictment for attempting to kill a companion with a razor and last winter shot at George Hall, who was passing by his home, claiming Hall was against him in the trial of Brown for the killing of his father. Like his father he was a lawyer, and bore many characteristics of that well known attorney. The afflicted families have the sympathy of the entire community.

PATTI ROSA.

The Remains of the Sweet Singer Laid in the Grave.

Chicago, Aug. 9.—Funeral services over the body of Mrs. John W. Dunne, or, as she was known to the public at large, Patti Rosa, were held at the Church of the Ascension this afternoon. The church was crowded and after the services a large number of carriages followed the remains to Rose Hill, where the remains were temporarily placed in a vault. Theatrical people and social lights were present from far and near, and none of the large companies playing in the city at the present time was without some representation. The floral tributes were many.

JUDGE BENNETT DEAD.

Expired Suddenly at the Home of Major Crumbaugh.

Hopkinsville, Ky., Aug 9—Jesse G Caswell Bennett, chief justice of the court of appeals, of Kentucky, died very suddenly at 8:30 o'clock this morning, at the residence of Major S B. Crumbaugh, in this city. His death was the result of rheumatism. He was a candidate for reelection at the election which will occur in November next. According to a constitutional provision his successor will have to be appointed by the Governor and the election will go over to Nov 1895.

Shot a United States Soldier.

New Castle, Colo, Aug. 9.—The excitement over the shooting of a United States soldier guarding the Midland bridge was intensified last night by the firing of a shot by some unknown person at First Sergeant McKane. The bullet struck just in front of him. The soldiers were to arms at once and a thorough search was made without finding the would-be murderer.

Decatur Reorganized.

Fort Wayne, Ind., Aug. 9.—The Consolidated Coal company has notified all the miners who stuck to their posts during the late protracted strike that they will each receive nine months' rent and fuel free.

IS IT, OR IS IT NOT.

An Agreement Between the Conferees on the Tariff Bill.

Early Reports Say None Has Been Reached but a Later Story Would Indicate an Agreement.

Washington, Aug. 9.—No one could be found about the capitol today who would assert that an agreement had been reached on the tariff, nor that there would be any possibility of a report today. The confidence of an agreement which seemed to pervade every part of the capitol yesterday has disappeared and the conferees seem today to have encountered obstacles to an agreement which may eventually result in a disagreement or will take several days to get over.

It is stated by a close friend of the administration that contentions in the president's letter for free iron ore and free coal have been only partially conceded and the inference is left that the house conferees are now standing out for free coal and free iron ore both.

It was also said that the senate contention for the rates it had made in the woolen and metal schedules was found to be a decided obstacle in the way of an agreement and that when the point was reached where a tentative agreement or understanding upon the main points was in sight the house conferees found that the senators were unwilling to make such table concessions on the manufacturing schedule.

Thus the prospects of an end to the deadlock seemed to be farther away than yesterday. As to the time when a report can be made, one is in a position to know says, even if an agreement should be reached, it would take twenty-four hours to prepare a report in shape to be submitted to the senate.

The tariff conferees remained in session until a few minutes past 12 o'clock. When they adjourned these democratic conferees proceeded to the president's room where they held a private consultation free from interference or interruption.

A report, however, soon gained general circulation which completely upset the reports generally circulated earlier in the day, as the latter story was to the effect that an agreement had been absolutely arrived at and that it was on the lines of the understanding which was reached last night that iron ore should be made free, coal made dutiable at forty cents per ton and that the compromise sugar schedule should stand. The indications point to the verification of this later report.

The republican members of the conference had not, at 12:30, received any formal notification to attend a meeting, but they had received intimation that a full conference would be held this afternoon and immediately began consultations with the leaders on that side of the chamber, apparently with the view of preparing themselves for the final conflict which they believe to be at hand.

A petition was today circulated among the members of the house of representatives, urging the house tariff conferees to stand by free sugar and a permanent income tax. Representative Bland started the petition and it was numerously signed. It is as follows: "We, the undersigned, democratic members of the house, request our committee on conference on the tariff bill to insist on the provisions of the house bill relating to free sugar and a permanent income tax and secure the best compromise possible on other schedules of the bill."

Representative McMillin, one of the house conferees when seen, stated that since the first meeting today he believed an agreement was in sight; coal and iron ore had not yet been settled but the main features of the bill would be agreed upon so that the republicans could be called in tomorrow. During the recess of the conferees there were conferences between leading conservative senators and the impression prevailed that the manufacturing schedules were being considered.

A copy of the tariff bill, which had been in the hands of Senators Gorman, Murphy, Vest and Jones, was taken into another room, when Senators Gorman, Brice and Murphy held a consultation. Senator Smith was sent for, but he was not about the capitol. At the noon recess of the tariff conference one of the house conferees stated that the reports which had been in circulation of presidential interference with the prospective agreement effected yesterday were not warranted, and that nothing had been suggested at the conference today to indicate any executive influence. The intimation was made, however, that a good many minor schedules had been encountered today.

3 p. m.—The conference of the conservative members of the senate with the democratic senate conferees developed the fact that the senate conferees had encountered obstacles in the metal, woolen and other schedules of such a character that they did not feel justified in proceeding further with out consulting the conservative senators. Senators Gorman, Brice and Murphy were present during the earlier part of this interview and Senator Smith joined them later, and a full statement of the situation of the demands of the house was made.

While the demands cannot be learned it is understood that the house members demanded very liberal concessions on many articles in the metal and woolen schedules and also in earthenware and glassware. The conservatives, after remaining in session for an hour and a half, came to a decision as to what they would be willing to do in this matter and placed their reply in the hands of the senate conferees, who took it with them to the afternoon session of the conference.

One of the conservative senators said afterwards that the further proceedings of the conference would depend upon the acceptance or rejection of the proposition of the conservatives and that the result would be made known to day. It was also ascertained after the close of the session that it was developed at the tariff conference this forenoon there had been a misunderstanding as to yesterday's agreement and it was temporarily declared off. It looked very much like a failure to agree for a time but after more or less argument a tentative arrangement was made and the meeting with the conservatives decided upon.

DISTRESS IN COREA.

The Citizens On the Verge of Starvation.

Secretary Gresham Asked to Furnish Ships to Send 1,000 Barrels of Flour.

Washington, Aug. 9.—Secretary Gresham has received from the Christian Herald, of New York, the application referred to in the morning dispatches for a government ship to transport 1,000 barrels of flour to Corea. This is the first notice that the department has had that any unusual measure of distress and depreciation exists in the kingdom. Assuming that it is true, the officials do not see how so small a quantity of grain, which the Coreans scarcely know how to use, will be of much avail in a population of 10,000,000 people. To complicate the situation, it is said that the Chinese and Japanese soldiers now occupying Corea are generally living on the country and supplies sent to the people might finally fall into the hands of the foreign soldiery. Secretary Gresham has not yet disposed of the application. There is a precedent for this action in the case of the Constellation, which was sent with a cargo to the relief of Ireland, during the Russian famine, the war vessels being unarmed and a regular freight steamer was chartered.

Washington, Aug. 9.—The house bill, monetizing and partly repealing the revised statutes requiring proof of subsequent loyalty before pensions or bounty lands are granted to Mexican war veterans, was discussed in the senate this morning. Mr. Hill asked if the bill was to remove the last vestige of political disability against these veterans, and was answered in the affirmative by Mr. George. Mr. Platte opposed the bill on the ground that there were thousands of these old claims, and suggested that as democrats complained of the present pension list this would be a good time to cull a halt. The matter went over without action. The senate went into executive session and at 1:45 p. m. adjourned until tomorrow.

The senate made and effort to dispose of the Chinese treaty in the executive session today, but did not succeed, owing to the absence of a quorum. On account of the absence of a large number of senators who are expected to return tomorrow, the treaty was postponed until then, and the senate adjourned after being in executive session only about half an hour.

Chairman Wilson was with President Cleveland until 10:20 last night. Secretaries Gresham, Carlisle and other cabinet officers being present and the prospective tariff agreement was fully gone over.

COULDN'T AGREE

And in the Wrangle the Firm is Busted.

Chicago, Aug. 9.—The Women's Baking company, the stockholders and directors of which were exclusively women, assigned today. The liabilities and assets are small, as the company's business had dwindled rapidly for the past year. The assignment was caused by the foreclosure of a mortgage by the creditors. The company has attracted considerable attention lately by the numerous quarrels among the stockholders and directors.

Ahead of Time.

Springfield, Ill., Aug. 9.—The relay bicyclists arrived here at 7:12 this morning nineteen and one half hours ahead of time.

LOCAL LINES.

A drunk who was endeavoring to cool off on fire water, was run in this afternoon.

Dr. Warren Anderson, of Kendallville, is here assisting in giving baths at the Abbot sanitarium.

The funeral of the late Fred Eckart will be held tomorrow afternoon at 2 o'clock at the residence, on East Wayne street.

The funeral of the late Sarah Bonser Cramp, wife of W. S Cramp, will be held Friday afternoon at 3 o'clock from the house, No. 85 East Washington street.

The Miller rag warehouse caught fire again today and the hose cart was sent to extinguish the blaze. Miller has been notified to get his rags out of the place at once.

The funeral of the late Mrs. Kissil will be held tomorrow morning at 9 o'clock from the residence and later at the Berry Street M. E church, the Rev. M S Marble officiating.

The fire department was called to an ice house near the Wabash shops about 3 o'clock this afternoon. Spontaneous combustion of the rapidly melting ice is supposed to be the cause. No damage—to the ice.

EXCITED AND NERVOUS

Is the Condition of the Grain Market at Chicago.

Corn Continues to Rob Around in Price and Claims the Attention of the Speculators.

Chicago, Aug 9. The fluctuations in the early trading in grain were less violent than they were yesterday, but the conditions were bullish and the trade continues excited and nervous. The bear panic, which had possession of the market yesterday, had given place to a bullish feeling at the opening. The leading influences leading to the reversal of yesterday's tone were the bullish features. The Cincinnati Price Current's summary noted a further deterioration in the growing corn crop, with increased feeling of wheat to live stock and the fact that the weather map continued to show high temperatures, no rain in the corn belt and reports from Kansas of a total failure of the corn crop. September corn opened raggedly anywhere from 57c to 59c in different parts of the pit, against 55½ at the close yesterday. But the price, as soon as a bullish figure was reached, was 57¾, and from that price it steadily declined till it touched 56½c, yesterday's last price. Then it rallied to 56¾c. May corn opened at from 58 to 58c against 57½ at the close yesterday, sold to 58c, eased off to 57¾, but rallied to 58c. September wheat opened at 56@56½c against 56¼c yesterday, touched 56½c and then, on heavy selling by Cunnellman & Day, broke to 55@55½c. This break was assisted by a report that 195,000 bushels had been chartered at Toledo for shipment to this port; and by the fact that Liverpool was a half penny lower. Good buying set in at the decline, however, and a rally followed, and the price rose to 56½c. September oats sold as high as 33½c against 32¾, the final price yesterday, but eased off to 32¼@32¾. Provisions were weak. September pork sold off 12½c to $13 07½, but rallied to $13 12½. September lard receded 2½c, and September ribs 5c.

The strength in grain continued, September corn selling up to 57c, May to 54c, and September wheat 56½c by 11 o'clock. The advance which followed the opening was caused by the Washington weather indications predicting no rain in the corn belt within the next thirty six hours. The country is also buying again and the big bear operator, Partridge, was a heavy buyer, taking everything that was offered. The country is also buying wheat. The trade in cereals is broadening.

Chicago Markets.

Chicago, Aug. 9—Wheat, steady, Aug., 55c; Sept., 56½c; Dec., 59½@59¾c. Corn, higher; Aug., 56¾c; Sept., 56½c, Oct., 56c.

Oats, steady; Aug., 32½c; Sept., 32½c; May, 37c.

Pork, firmer; Sept., $13 30; Jan., $13 30.

Lard, firmer; Sept., $7 30; Jan., $7 25

Ribs, firmer; Sept., $6 97½; Jan., $6 85.

Rye, 47c bid.

OPPOSED TO BYNUM.

Some Democrats Are Trying to Spring a Rival Candidate.

Indianapolis, Aug 9—The democratic convention to nominate a candidate for congress in this district has been called to meet on Tuesday next, and the opposition to the renomination of Congressman Bynum is at work trying to center on a man to place before the convention. It had been supposed that Bynum would have no opposition, but the last few days have developed the fact that he is not acceptable to a number of democrats, and these have concluded to make a canvass and endeavor to agree upon a candidate to be presented to the convention. The delegates were selected some weeks ago and are believed to be generally well disposed toward the incumbent. The names of John W. Kern and W. R. McCullough have been suggested by Bynum's opponents, but nothing will be done till a meeting is held to estimate the strength of the opposition. Bynum's friends say that he will be renominated by acclamation.

A BAD COWBOY.

He Pounds a Priest Over the Head With a Cartridge Belt.

Fargo, N. D., Aug 9—Last night a drunken cowboy named Collins, attacked Father Wilhelm at the latter's house. He attempted to pound the priest over the head with a cartridge belt and was shot through the shoulder. He will recover.

MAILS TO COREA.

Interesting to Fort Wayne Readers Who Send Letters There.

Washington, Aug. 9—Little interruption to the transmission of the United States mails can be caused by the war over Corea and no apprehension of delay of any sort is entertained by officials of the postoffice department. Corea has no regular postal system and such crude service as is maintained is either under the authority of the Japanese government or through private enterprise. There are three postoffices in the kingdom, at Fosan Fe, Gensbaun and Jinsen, which are under Japanese jurisdiction. All other arrangements for carrying mails are made by private business establishments, as in China beyond Shanghai. The amount of mail transmitted between Corea and this country is naturally very small and is forwarded with the mails sent from Japan. A dispatch pouch is sent regularly by our legation at Seoul, Corea's capital, to Yokosuma, and reaches the United States three or four times a month. Its transportation from Seoul to Yokohama is accomplished solely through arrangements effected by the state department. Steps were taken last spring by the Corean government through its legation of finds here to secure all necessary information preparatory to admission into the universal postal union but since then no action has been taken.

THE GREAT ENGINE

In the Pullman Works Starts Up After a Long Idleness.

Strikers Still Hopeful of Victory and Appeal to Labor Unions for Financial Aid.

Chicago, Aug 9.—The great Corliss engine in the Pullman shops was in operation today for the first time in three months. Two more departments were opened and about 900 men were at work. The strike leaders still hope for a victory and have sent telegrams to almost every labor organization in the country stating that the strike will be won if it can be continued awhile. The messages asked for money and stated that the strikers are starving.

GEN. ANTHONY WAYNE.

Bellaire Does Him Honor and Fort Wayne Should Do So.

Dayton, Ohio, Aug 9—Yesterday was the biggest in the history of Defiance, for 100 years ago Fort Defiance was completed by Gen. "Mad" Anthony Wayne. From early dawn until evening the streets were thronged with people, and a conservative estimate of the number is 20,000. They came early and stayed late. The old pioneer was everywhere present. The exercises were opened by a grand military and civic parade under command of G. A. R. Department Commander E. E. Nutt. In the parade were companies of the state militia, the continental guards, of Fostoria, Ohio, and civic societies of northwestern Ohio. This parade was fully an hour in passing, and was one of the greatest processions ever witnessed in this section. Governor McKinley and staff witnessed the parade from the reviewing stand.

The exercises in the afternoon were held on the old fort ground famed in history in connection with General Wayne. All the bands present, five in number, consolidated and played the famous "Continental March," composed expressly by Professor Alder, the noted composer of Philadelphia. Speeches were made by J. E. Dietrick, mayor of the city, who welcomed the visitors on behalf of the people of Defiance. He was followed by S. M. Tyler and Governor McKinley.

E. B. Hay, of Washington, exalted ruler of the grand lodge of Elks, followed in a happy speech. Allen Dougall, of Fort Wayne, made a masterly address in which he took occasion to give some history of the Maumee Valley and of the battlefields and forts of the Indian wars. He was followed by Rev. M. P. Kinkead, of St. Mary's Catholic church, of this city. Fully 15,000 persons were on the old fort grounds.

OPIUM RESORTS.

Several Chinamen Sent to the Bridewell From Chicago.

Chicago, Aug 9.—Several Chinamen who have been sent to the Bridewell on fines for keeping opium resorts, are in fear lest they lose their pig tails. Their heads were about to be shaved, as is the usual treatment of prisoners, when they set up a howl and declared that they would protect their cues with their lives. Superintendent Crawford ordered his men to omit the shaving process, but to search the prisoner's heads. Half a dozen of the men had opium concealed in their hair and the drug was taken from them, despite their protestations that they would die without it. Superintendent Crawford reported his action in protecting the pig tails to Mayor Hopkins, and was informed by the corporation counsel that there was no Chinese-American treaty protecting pig tails.

TOOK MORPHINE.

Quarreled With Her Lover and Then Suicided.

Chicago, Aug 9.—Mae Hastings, said to be from Louisville, Ky., killed herself at the Great Northern hotel early today with morphine. Miss Hastings was a beautiful young woman and is said to have belonged to a prominent Louisville family. A quarrel with her fiancee, whose name is unknown, is thought to have caused her suicide.

Gone Wrong.

Boise, Idaho, Aug 9.—George N Hinckly, of Malvern, Lamb county, has been arrested on a charge of forging county warrants in amounts ranging all the way from $6,000 to $15 000. Hinckly was deputy auditor of Latah county under Cone and was entrusted with the entire business of the office. He is a bright, prepossessing man and had the confidence of the entire community.

Will Withdraw Troops.

Denver, Col., Aug 9.—General McCook has withdrawn all troops from service along the line of the Southern Pacific railroad in Arizona. In view of the firing upon soldiers at New Castle, it is not likely that the Colorado or New Mexico troops will be withdrawn soon.

A Baron Dead.

Berlin, Prussia, Aug. 9.—Thomas Acheson Dennison, Second Baron Dennman, marshal and associate of the lord chief justice of England, is dead. He was eighty-nine years old.

New Cholera Cases.

St. Petersburg, Aug. 9—Twenty-two new cases of cholera, and fourteen deaths from the disease have been reported here today.

POLICE CULLINGS.

Mrs. Jacoby Run Down and Captured Last Night.

She Was Sent to Jail This Morning—About Rubbish Fires—Chief Borgman Highly Honored.

After two days hard chasing the Fort Wayne police managed to capture Mrs. Ida Jacoby. The lady escaped from the lilly early yesterday morning and late in the afternoon word came to the station that the woman was at her home on Caroline street. The patrol went out again and just as it hove in sight Mrs. Jacoby and a male friend jumped into a buggy and drove away at a rapid rate. The patrol driver gave chase but was unable to overtake the fugitives. Two officers were then stationed in the high weeds near the house and about 11 o'clock saw the woman and her companion returning. Both were captured but the fellow cried and took on at such a rate that he was let go. Mrs. Jacoby was taken before Mayor Oakley this morning and charged with drunkenness. She was fined $1 and costs and went to jail. This action was thought necessary as the humane officer is anxious to get hold of the woman's little son and have him sent to some good institution.

Issued an Order.

The superintendent of police has issued an order notifying all citizens to leave on burning rubbish without their premises during this extremely dry weather. So many fires have occurred recently that the authorities deem this precaution very necessary.

A Pitiful Sight.

Yesterday afternoon the attention of Officer Bardenhorf was called to the case of a poor old horse which was wandering about the lots north of the city. The animal had been turned loose by its owner to chift for its livelihood. A number of thoughtless boys had chased the poor old creature about the common until it fell and was unable to rise. Here it lay moaning and dying of thirst for two days. Officer Schlaudroll was notified and the animal was killed and thus put out of its misery.

Grave Charges.

Chief Borgman was last evening at roll call called upon to answer to some very grave charges. About the time he was ready to strik through the station house door Superintendent Liggett stepped up and pinned a fine gold star on his coat—a gift from the police force. The star is a beauty, and to say that "Billy" appreciates it, is putting it mildly.

A COUNTRY FRACAS.

Miss Hattie Godfrey Cut During the Racket.

Hiser's Famous Road House Saloon the Scene of Another Disgraceful Row—They Were Dancing.

It was hot last night, but not too hot for a dance out at Hiser's saloon, a well known road house near Stellhorn's saw mill, a few miles southwest of here. In fact, it is never too hot or too cold for a "hoe down" at this well known joint, and last night a gay crowd had gathered to while away the pleasant (?) hours. Liquor was consumed as usual and about midnight the air was ripe for a fracas. Some one started the ball rolling by threatening to put some one else out. Then they fought. During the row Miss Hattie Godfrey, a well-known young lady living on the Indian reservation and a member of the widely-known Godfrey family, met with an accident which came nearly terminating fatally. In the grand rush which was made for the door the young lady was quite roughly handled by some of the toughs in attendance and was pushed through a glass door. Her right hand came in contact with a sharp piece of glass and as a result a terrible gash was cut in the girl's hand. The ulner artery was severed and the young lady came near bleeding to death. A rig was quickly procured and Miss Godfrey was brought to this city in mad haste, the horses being covered with foam from hard driving and when the young men pulled up at Dr. Eadies's door with the injured girl.

After the wound was dressed Miss Godfrey was taken to the St. Joseph hospital. She had a narrow escape.

Mexican Prophet.

He Predicts Earthquakes in the City of Mexico City.

City of Mexico, Mex., Aug 9. Considerable apprehension is felt here in the volcanic zone, in which the City of Mexico, Pueblo and other populous Mexican cities are situated, over the predictions of Juan N Contreras, the famous meteorologist and scientist of Guadalajara. Senor Contreras predicts that between tomorrow and Sunday the region around the volcano of Popocatepetl, southeast of this city, will receive an earthquake visitation, a disturbance also occurring between Aug 21st and 28th. Should the shocks miss this section they will be felt in the state of Oaxaca, to the south. Senor Contreras during the past two years has made many predictions of earth-quakes in Mexico, nearly all of which have been verified by fact. He is a follower of Falb, the great European prophet, and bases his calculations on the conjunction of the sun, moon, stars and subterranean forces as the cause of the disturbances.

The New Polish Church.

Cicero, Ill., Aug. 9.—Secretary Chrowtowski of the Polish National Catholic church committee, has received letters indicating that about forty conferees will be represented at the convention to be held in this city August 20. The election of a bishop will be one of the chief objects of the convention and it is almost certain that Rev. Father Kolaszewski, who started the independent Catholic church movement in this city, will be honored with the office.

DANGEROUSLY INJURED.

John Archer, of Washington Township Hurt.

Parent, the Frenchman Was Waylaid, Now at the Point of Death —Conviction.

John Archer, a well known farmer and ex-trustee of Washington township, who resides five miles north of the city on the Coldwater road, met with quite a painful and serious accident at his home last evening.

Early in the evening he went to his stable to get a horse and, when passing some of the colts, they commenced kicking Mr. Archer was struck by their heels and hurled up against the stone wall. Several of his ribs were broken, his head severely bruised and he was also injured about the breast and back.

He lay unconscious in the stable for several hours before he was found by the members of his family, but he was then removed to the house and tenderly cared for. Physicians from this city were immediately summoned and they did all in their power to relieve the sufferings of the old gentleman. It is thought that he was injured internally and that the accident may prove very dangerous to his life on account of his age, he being seventy-three years old.

J. W. Hayden Hurt.

J. W. Hayden, of the Randall Bicycle company, is laid up at home with a serious injury to his left leg. Mr. Hayden was seated on a bicycle in front of the agency, when a bystander playfully gave the wheel a push, throwing him off. Mr Hayden was seriously hurt, the knee cap being nearly torn off. He has been confined to his room for the past two days.

Cut Her Scalp.

A ten-year old girl at the St. Vincent orphans' home had the misfortune to fall and cut a deep gash in her scalp. Dr. McOscar was compelled to take a number of stitches in the wound.

Arm Broken.

Mrs. Sarah Krieg, of No. 34 Wadsl street, while hanging a curtain Wednesday afternoon, fell from a chair and broke her arm, near the wrist.

He May Die.

Parent, the Frenchman who was recently stabbed by a fellow countryman, named Bereet, is lying at the point of death at the Hope hospital. Gangrene has set in and the doctors say the man has but a poor chance to pull through.

ONCE LIVED HERE.

Henry Whitmann Murderously Assaulted by His Sons at Chicago.

Henry Whitmann, so murderously assaulted at Chicago on Tuesday by his sons, and who is now lying at the county hospital in that city ill unto death, was formerly a resident of this city, and is well known here. He was a machinist in the railroad shops here about eighteen years ago, and left for Logansport, afterwards going to Chicago. The telegram giving the account of the sons' assault upon their father, is as follows:

"Early in the morning the boys, Walter and Harry, returned home after spending the night at a dance. Mr. Whitmann upbraided them for staying out so late and the boys retaliated with angry words. From words they resorted to blows and the father was chastising the boys in a wholesome manner, when one of them plunged a knife into the old man's stomach, producing a frightful wound. When the police were called they were denied admittance to the house, but gained entrance by force. The father was sent to the hospital in an unconscious condition and the boys were locked up at the West Chicago avenue police station. The old man was revived long enough to identify his sons as his assailants."

George Sill, of this city, is a brother-in-law of Mr. Whitmann, the man who was assaulted by his sons.

MARY EDITH WOODWARD

Will Organize a Purity Association in This City.

Mary Edith Woodward, of Indianapolis, the secretary of the state association, will be in Fort Wayne the latter part of next week to organize a branch of "The Ladies' Social Purity Association of the United States."

Paris Nominated.

Terre Haute, Ind., Aug. 9.—George Washington Paris was nominated for congress in the Sixth Indiana district by the republican convention today, defeating Col. Thomas H. Nelson, ex-minister to Chili and to Mexico.

Buckley Wanted.

Springfield, Ill., Aug. 9.—Governor Altgeld has issued a requisition on the governor of Colorado for Granville N. Buckley, wanted at Chicago for the murder of Aaron B. Bright, June 9, 1894, and arrested in Colorado Springs.

The Keith Leaders.

Birmingham, Ala., Aug. 9.—The Keith leaders were in conference until an early hour this morning at work on resolutions or an address to the people, which they will make public later.

This hot weather seems to have magnificent staying qualities.

The weather prophet ought to be killed. Let's have one that will give us rain.

The prohibition state convention of Michigan, nominated A. M. Todd, of Kalamazoo, for governor.

President Cleveland's administration was indorsed and the proposal for a popular vote for senator defeated in the North Carolina democratic convention.

General James B. Weaver, the populist candidate, was indorsed by the democratic congressional convention at Council Bluffs, which declared for free coinage and arbitration of labor disputes

According to a telegram from Indianapolis, Henry C. Berghoff, of this city, has written his friends that he will accept the nomination for treasurer of the state if it is tendered him by the democratic state convention.

Fair Luna now sheds her brilliant rays over our once darkened city. The city authorities cannot turn out her light and for a brief time our people can wander forth in safety after old Sol has retired. The moon comes as an especial public benefactor at the present time and her coming is welcomed by all.

The five hundred building associations in Indiana are now required by the state law to furnish an annual report to the auditor of state by June 30. July is allowed as a month of grace. If the report is not forthcoming by August 1 the officers of the delinquent association are liable to fine, and the auditor has power to make an investigation of the association's accounts. Two hundred associations are still delinquent, and the auditor will proceed against them according to law.

South Wayne as naturally belongs to Fort Wayne as the arm of a man does to his body, and hence annexation to the city should by all means be accomplished. South Wayne is a beautiful suburb, a handsome and desirable residence locality and has a population of nearly 3,000 people, with an assessed valuation of about $1,000,000. The joint committee of the council will report in favor of annexation and the ordinance will be put on its final passage at the council meeting next Tuesday night.

The democratic majority in Alabama, all based on trustworthy figures, is 26,000. The democrats have twenty-two senators to thirteen for the populists, and sixty-one members of the house to thirty-nine populists. Kolb has issued a proclamation charging fraud, but as his charges are based on the vote that he expected before election to get, they are not well sustained. The Jeffersonian-Populite-Republican party of Alabama has been done for in such short order that people wonder what it was begun for.

If the centennial committee is not successful in raising sufficient funds to celebrate the one hundredth anniversary of the building of the old fort and concludes to drop it, the newspapers of the city will probably take hold of the matter and celebrate the event at their own expense. They will not see Fort Wayne disgraced by allowing this event to pass unobserved. Long before this time a monument of General Wayne should have been erected on the site of the old fort. Let this be done, and let us also celebrate in a proper manner our centennial anniversary.

The numerous fires which have occurred in this city and throughout the county during the last several days ought to be a warning to every one to be extremely careful in the burning of leaves and other rubbish about their premises. The long drought has made everything as dry as tinder and a single spark, which ordinarily might do no harm, is liable to start a conflagration that will destroy thousands of dollars' worth of property. Many of the fires which are attributed to tramps or to incendiaries are, no doubt, caused by the carelessness of persons who have started rubbish fires in the vicinity.

Speaking on the subject of the erection of more drinking fountains along the streets of this city, Secretary McCaughey, of the City Y. M. C. A., said last evening that the fountain in front of that institution, erected by the Woman's Christian Temperance union, furnished over 5,000 drinks to the thirsty one day this week. Visitors in the reading rooms were delegated by turns of an hour each to make the count and the above was the result. With such figures, can there be any doubt as to the value of the public drinking fountain? Would that we had a dozen more along Calhoun street and the same number in other parts of the city.

Exports of Gold.

From the way that some uneasy writers talk about the exportation of gold it might be supposed that this is something that has never happened before. They seem to forget that in twenty-one out of the last thirty years the exports of gold from the United States have largely exceeded the imports, the total excess in that period being $161,622,000. They also forget that this country is a very large producer of gold, the product of our mines during this period having aggregated some $1,100,000. Allowing one third of this to be used in the arts, and deducting the net exports, we have still quite a handsome addition to our domestic stock.

It is true that the net exports for the closing months of the last fiscal year were much in excess of the average. They amounted during May and June to $45,000,000. But then, during May and June of 1891 they were $45,000,000, and this was after the McKinley bill had been passed and there was no tariff agitation on which to lay the blame.

These gold figures taken by themselves are not always plainly significant. Thus it would puzzle a mere party organ to explain why during the years 1887 and 1888 the imports of gold exceeded the exports by $58,000,000, while in the years 1889 and 1890 the exports exceeded the imports by $54,000,000. These were the first two years of the Harrison administration, before the tariff had been changed; yet in the next two years, 1891 and 1892, under the McKinley act, the exports of gold exceeded the imports by $68,500,000. Most of this excess, however, was in 1891, the balance in 1892 being nearly even. Then came the scare of 1893, when the net exports rose to $87,500,000, dropping in 1894 to $4,500,000, just the figures of 1890.

To any one who will take the trouble to reflect over the conditions existing at these several periods it will be evident that no one cause is sufficient to explain the movements of gold. It will be also evident that an outward movement from a gold producing country like our own is not in itself a cause for alarm, though it is often a significant index that ought to be carefully studied, in connection with a great number of other statistics without which the gold figures alone may be misleading.

Utah.

It is as a bimetallic state that Utah wishes to put herself on record when she comes into the Union. Therefore Congressional Delegate Rawlins caused to be made a silver penholder with a gold pen attached. This he provided for President Cleveland to sign the act which permits Utah to become a state. The pen will now be treasured as a historic souvenir.

But the president's signature does not make the territory a state. The present enabling act empowers the people of Utah to hold a constitutional convention, prepare a state constitution and submit it to the voters. If they ratify it, and if nothing in it is contrary to republican government or the United States constitution, then the president will issue a proclamation declaring Utah to be a state. She will be the forty-fifth. The forty-fourth was Wyoming. Utah would have been in sooner only for polygamy.

Utah cannot, however, elect any senators or representatives to the present congress. It ends March 4, 1895, and in March, 1895, Utah's constitutional convention will meet. The constitution it frames will be submitted to the people for ratification the November following. State officers and congressmen will be elected under the new constitution immediately. The legislature will convene in December and immediately elect senators. Actually, therefore, Utah will not be a state till near the close of next year.

The death of General Augustus J. Pleasanton at his farm near Philadelphia recalls the fact that it was he who first advocated the celebrated "blue glass theory." From certain experiments he made he was led to the conclusion that the blue rays of light had a remarkably beneficial influence on both animal and vegetable life. He published a book setting forth his idea, and it attracted wide attention. Soon all over the country houses were to be seen with part or all of the windows of certain rooms filled in with blue glass. But the fad died out, as all fads do. General Pleasanton, however, seems to have profited by his own doctrines, for he lived to the good old age of 86, in active business until the past six weeks. General Augustus J. Pleasanton was not the commander who distinguished himself so gallantly in the civil war. That was his brother, General Alfred Pleasanton.

Besides the outrages and violence attendant on labor disturbances in July the month will long be remembered as one in which an unusual number of fatal lightning strokes and accidental explosions occurred. Notable among the latter are the blowing up of the gun carriage at Chicago and the terrible mine explosion at Hazleton, Pa.

If any state needs trained militia, it is apparently Illinois. Yet Governor Altgeld reports that the Pullman strike will cost the state so much money there will be nothing to pay the expenses of national guard encampments this summer, and there will therefore be no encampments.

Perhaps Debs will run for congress now. Perhaps he will lecture. That clear cut, Grecian profile of his is almost as handsome as James Whitcomb Riley's.

The Pullman strike will cost the United States government $255,000 for deputy marshals, not counting the expenses incurred by the regular soldiers.

Thousands of Americans in Europe will this summer struggle assiduously to bring home with them the true British accent.

In the matter of the tariff bill it took congress a long while to agree to disagree.

Summer Schools.

The University Magazine mentions 22 summer schools in various parts of the United States this season. Seven universities hold regular summer courses which count for graduation. This is a welcome opportunity for those poor and ambitious young men and women who must pay their own way through college. They mostly do it by teaching. At a time when there is vacation in their own schools they are thus enabled to get in a full term's college instruction for themselves. Most of the universities are pleasantly situated in the midst of natural surroundings, so that the earnest student will really have pleasant change and recreation while he learns.

The universities that are open are Harvard, Cornell, Virginia, Wisconsin, Minnesota, Michigan and Pennsylvania. Some of them have as many as 44 different courses of instruction. Thus the student desiring to perfect himself in law, medicine, history, science, languages or any branch of instruction can choose his own particular line and go in for it with all the glorious enthusiasm of youth. There are so many special things to be learned in our time that nobody can hope to master more than two or three departments of instruction. There is one comfort, however. Man's capacity for assimilating information grows with the exercise of it.

Besides the university courses, various colleges are open. Then there are the summer encampment schools. Chautauqua is the mother and model of them all. Chautauqua is in fine force this summer. The third session of the Catholic summer school of America is open at Plattsburg, N. Y. This school is giving especial attention to ethics and labor questions. None of the schools can do better than to deal with these topics. The Pennsylvania university gives much attention to economics also. There is need of it.

At Lakeside, O.; at Bay View, Mich., and at Monona lake, Wisconsin, are numerously attended summer encampment schools. Colorado Springs has a summer school of science. Among the most interesting of these educational courses are those which deal directly with the perfecting of the human race morally. It has been said that if every human being obeyed strictly the golden rule that would be the final settlement of every vexed question known to the race. Professor Felix Adler's Plymouth (Mass.) School of Applied Ethics still flourishes. But in the west at Iowa college, Grinnell, Ia., has been started this summer a school of applied Christianity.

Doubtful Rumors.

Some time since the story was telegraphed over the Union that the gentle and beautiful Infanta Eulalie was living in poverty and obscurity in London. The truth was that she was not in London at all and not in poverty anywhere. It is most unfortunate that conscienceless knaves, miscalled correspondents, haunt the newspaper profession and send out wild and lying reports on any subject that strikes their fancy. Sometimes there is a thread of basis for their story; often not even that. If the story of the loss of the Walter Wellman polar expedition should turn out to be false, there is hardly any punishment severe enough for the liars who forged the tale. If the anguish they caused the wife and family of Wellman and the friends of the other explorers counted for nothing with them in their desire to make a newspaper sensation, then the atrocity of their conduct ought to be brought home to them in some other manner. At any rate, it is by no means sure the travelers are lost.

The expedition was to cost $25,000, all of which the plucky newspaper man at the head of it was to earn with his pen. He expected to reach the pole by sledging over the ice and to return to the northern coast of Spitzbergen in time to sail southward before the waters froze up for the winter. He was not certain that he would reach the pole, but he was certain, he said, that he would be back in America by Thanksgiving. Let us still hope he will be able to redeem his promise. A relief expedition will of course be sent in search of him as soon as possible.

China and Japan are very nearly matched as to military resources. China will not fight in any modern war with tomatoes and stench balls. She has a navy of 30 vessels, many of them armed with Krupp guns. Only five of the ships are of the latest pattern. Those are armored. Four are battleships, and one is a coast defender. China has also 10 cruisers. Japan's navy is more effective, consisting of 32 vessels, all of the modern type and carrying the most destructive guns. She has three coast defense ships armed with 12 inch French rifled guns. But Japan on the water is more than counterbalanced by China on land. China's army on a peace footing numbers 300,000, while that of Japan is only 72,000. China can at any time put 1,000,000 soldiers into the field, while the largest army Japan could muster would be one of 250,000 all told. China has nearly 400,000,000 inhabitants; Japan, 40,000,000. Still allowance must be made for the more aggressive and progressive spirit of Japan. Both her fleet and army are likely to be much more effective than those of China.

It will be a thousand pities if, after all, the money to build the Nicaragua canal cannot be raised in this country. It will not be our credit if the canal company be forced to accept the offer of British capitalists to furnish the money. If some of our selfish millionaires who are buying yachts, country estates and other properties in England and other countries, spending money like water to get into London "society," had a spark of patriotism about them, they would have used some of their surplus wealth to construct this work which means so much to the United States. Our ten richest Americans could have built the canal out and out and scarcely felt it.

The appointment of Carroll D. Wright, labor commissioner, as chairman of President Cleveland's railroad arbitration committee is a guarantee that the spirit of justice and good will to all parties will pervade the investigations of the committee.

Since wartime we have not had such lively politics at Washington. The people watch the bear garden with great interest.

INDIANA NEWS.

Matters of Interest From Different Parts of the State.

Samuel Sells, near Fortville, was crippled for life by an accidental fall.

A daughter of James Sparks near Wilkinson, attempted suicide by swallowing concentrated lye.

The democracy of Cass and Miami counties have nominated Joseph Gray, of Cass, for joint representative.

A young ministers' training school has been organized at Mitchell, headed by the Rev. W. H. Krutsinger, of Elletsville.

Fire destroyed William Carrell's wheat crop, near Hartford City, together with the thresher and other property. Loss, $3,500.

The congregation of the Christian church at Madison has extended a pastoral call to the Rev. W. M. Gard, of Knightstown.

In the oratorical contest at Farmland, under the auspices of the W. C. T. U., first honors were awarded to Robert Tomlinson.

Miss Julia Livingston, of Crown Point, has instituted breach of promise proceedings against Prof. George W. Christie, of Hobart, claiming $10,000 damages.

Miss Julia, seventeen years old, daughter of David Rife, of Wabash county, eloped with her brother-in-law, John Heltmansperger, a widower forty years of age, and they were married.

Charles Coombs, of Crawfordsville, a convict in the prison north for killing Walter McClure, in January, 1891, died this week. McClure and some companions were returning home from a dance, and in passing Coombs' house McClure caught hold of the fence and shook it. This awakened Coombs, who fired upon the group without waiting to investigate. The bullet struck McClure in the shoulder, resulting fatally within a few hours.

The Church of God of northern Indiana, southern Michigan and northwestern Ohio have organized an Educational, Sanitarium and Home association, which proposes the immediate establishment of a sanitarium and hospital, and later on the permanent endowment of a school and charitable institution. The Rev. A. B. Riggs, of Goshen, and Dr. Dowling and the Rev. W. N. Arnold, of Kendallville, were chosen an executive committee, looking to the location of the proposed institutions and other matters connected therewith.

The Kokomo Natural Gas and Oil company has a natural gas well which it can not control. Under the supposition that the well had gone dry the company undertook to pull the casing. About four hundred feet down the pipe broke in two, making it impossible to remove the lower portion or replace the upper. While pulling the tubing the workmen were driven away by an immense flow of gas, water and oil, which shot into the air and took fire. A lake was soon formed immediately surrounding the well, through which the gas constantly rushes. The company so far has found it impossible to put out the fire or stop the flow, and the well has developed into a dangerous nuisance. Apparently, there is no way of controlling it and it may be several years before the well exhausts itself.

Dr. W. S. Greene, colored, of Baptistown, near Evansville, established a colony about three miles away, which he named Greeneville. Twelve buildings were constructed, which were tenanted by colored people, each family with its little plat of ground. The colony is prosperous and law abiding. The location, however, gave offense to the whites in the same neighborhood, and recently Dr Greene has received numerous white cap notices. Two nights ago a systematic attempt was made to burn up the little village, the torch being applied to the fences and outbuildings. Several fences, a big hennery, two coal sheds, and other property were consumed, but the villagers succeeded in saving their dwellings after a hard struggle. As a guard against further incendiarism, an armed guard has been established, the colonists taking turns in standing picket duty. The colony has erected a church and school house, and made many material improvements.

For many years past it has been the aim of scientific chemists and physicians to produce a medical preparation which would be not only immediately beneficial in relieving various forms of headaches, but extremely pleasant and palatable to take. This result has been successfully arrived at by the Arnold Chemical Company, of Chicago, who have perfected by a continued series of careful experiments an effervescent compound known as Arnold's Bromo Celery. This remedy not only contains those salts which act so marvellously on the nervous system, circulation and digestive organs, but also the active principle of Celery, so excellent in its effects upon the blood, brains and nerves.

All those who are afflicted with headaches due to stomach disorders, biliousness, sluggish liver, torpid bowels, constipation, sleeplessness, brain exhaustion, nervous depression, mental excitement, late hours, alcoholic excesses, or other irregularities, are recommended to try Arnold's Bromo Celery. They will return again and again to this excellent restorative and class it as one of the finest remedial agents of modern times.

Prices, 10, 25 and 50 cents. Of all druggists.

DRIVEN INSANE.

Sad Condition of a Farmer Who Was the Victim of Swindlers.

Lima, Ohio, Aug. 9.—John Crane, a farmer, living a few miles south of this city, has been taken to the insane asylum. Several months ago a stranger bargained with Crane for his farm, putting up $50 to bind the sale. A week later another man appeared and offered Crane $200 more for the place than the first man and Crane agreed to sell to him. Then the first man reappeared and Crane gave him $50 to release his claim. The man who offered the larger amount never came back, and Crane brooded over the affair until he become insane.

WOMEN IN HOT WEATHER.

How They Can Keep Cool, Comfortable and Happy.

"THE NICETIES OF LIFE."

A Prominent Lady Talks Upon the Subject and Gives Some Very Valuable Advice.

"Talk about suffering from the heat! Why, even children do not suffer so much in hot weather as women do!"

She was a prominent member of the Executive Committee of a Woman's association that meets annually in New York, and she spoke very earnestly.

"No one but a woman can understand this; but all women know it. Every atom of a woman's body is governed by a law of its own and hot weather seems to fight every one of these laws. A woman's sensitive nerves are outraged by the heat. Her blood gets warmed up when she wants to be cool. The hundreds of nice things which are necessary to her happiness get soiled, rumpled or unattractive in some way. All this frets, annoys and causes her unhappiness."

"I am willing to admit what you have said, but can you offer any suggestions?" asked one of the lady's companions.

"Yes, I can. I would have women avoid fretting and worrying; keep as cool as possible, and above all things be careful of what they eat and drink. The best food for any woman or man either for that matter during hot weather, is something that nourishes and strengthens, with little or no effort on the part of the stomach. The only thing that will do this in every case is an artificially digested food, one that is digested before being taken into the mouth; and I know of but one predigested food, and that is Paskola. I have used it carefully and find it all that is claimed for it. It is as palatable as lemonade. It refreshes instantly. It nourishes in every case, and being already digested requires no effort on the part of the stomach in order to insure its assimilation. I know a great many ladies in the highest walks of life and who move in the best society who are using it every day and who never felt so well, looked so well, or were so well in their lives as they are now. I do not know anything about how it is artificially digested, although I understand it is because its nourishing starchy elements are mixed with vegetable digestive principles, but I do know that, judging by its effects, it does more for women, and especially during hot weather, than anything that was ever before known."

The above conversation is just as it occurred in the rooms of the committee, and if it offers any suggestions to other ladies we shall be glad.

Any up-to-date druggist will furnish Paskola. If you want to know how it works, send for free pamphlet to the Pre-digested Food Co., 30 Reade street, New York.

A SNAKE DROVE HER MAD.

It Hung for Several Hours Over a Sick Woman's Bed.

An aged lady named Mrs. Summerfield has been crazed by the awful experience through which she went a few nights ago, says the Philadelphia Times. Mrs. Summerfield is the mother of a wheat farmer living in Vernon, Texas, and has been ill some time with a throat trouble, which has nearly destroyed her voice. She was attended to bed on the occasion mentioned by one of her granddaughters, who, at the old lady's request, left the lamp beside the bed burning brilliantly.

The home was newly built, and is not quite completed, with the rafters of the roof still uncovered by any ceiling. During the night the old lady's eyes were attracted by some object moving along one of these rafters, and presently a large bull snake thrust its ugly head over and hung there, looking down at her.

She in all probability tried to summon some one, but owing to her affliction was unable to make herself heard. So perhaps for hours she lay with her terrified eyes fixed on the hideous shape overhead until, overcome with nervous fear, her mind began to wander. When found in the morning she was unconscious, and it was with difficulty that she was revived. Her first motion was toward the rafter just over her head, but this was thought only a part of her delirium, until all at once the snake ran down along the rafter, and then dropped down on the bed. The old lady screamed loudly, and again fainted, and when she finally regained consciousness it was seen that her terror had completely unhinged her intellect.

During the day she seemed quiet enough, but at the approach of night became so frantic that it was necessary to restrain her. The bull snake is not venomous, but is formidable and hideous enough to inspire repugnance in the strongest mind. On searching the rafters and roof of his house, Mr. Summerfield, after his mother's fright, found and dislodged no less than eighteen snakes of several varieties. This is their season of hibernation, and they seek the warmest spot at hand in which to lie until spring. Unless molested, they are usually harmless at this time, being too sluggish to move, and can easily be killed, but near a fire they thaw out and become aggressive if shut in.

State of Ohio, City of Toledo, Lucas County, } ss.
Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.
FRANK J. CHENEY.
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.
{ SEAL } A. W. GLEASON, Notary Public.
Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

Disastrous Search for Knowledge.

Several years ago a scientific wiseacre of Massachusetts who had never had the pleasure of meeting with a gypsy moth sent word to a friend in a far away land to send him a specimen. The friend complied, and the moth came duly to hand. It escaped from the naturalist, much to his disappointment and much to the sorrow of the Bay State ever afterwards, for the moth went forth and multiplied to such a degree that it has cost the State $250,000 in the past four years to carry on the fight against its ravaging made necessary by its great destructiveness. Last year 1,000,000 trees were examined by a State commission, and 40,000 egg clusters were destroyed.

Beware of Cheap, Worthless Imitations.

Ask for Simmons Liver Regulator. Recollect that for malaria, biliousness, dyspepsia, constipation and headache it has no equal.

Warm, Indeed.

"I was very much touched by the warmth of my father-in-law's affection," said the young man who talks about his private affairs.
"Indeed. How was it expressed?"
"By the present of a ton of coal."

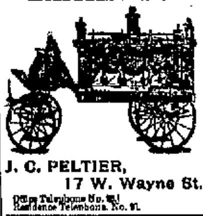

Important Facts.

If you have dull and heavy pain across forehead and about the eyes; if the nostrils are frequently stopped up and followed by a disagreeable discharge; if soreness in the nose and bleeding from the nostrils is often experienced, if you are very sensitive to cold in the head accompanied with headache; then you may be sure you have catarrh; and should (immediately) resort to Ely's Cream Balm for a cure. The remedy will give instant relief.

Sheriff's Sale.

Execution No. 2096.

In the Superior Court of Allen county, state of Indiana.
Lewis C. Paine vs Estella C. Stemmen.
By virtue of an order of sale, to me directed and delivered by the clerk of said court, in above entitled cause, I have levied upon and will expose for sale at public auction, at the court house door in said county, between the hours of 1 and 4 o'clock p. m., of the 18th day of August, 1894, the rents and profits for a term not exceeding seven years, of the following described premises, viz:
Lots ninety-two (92) and ninety-four (94) in Williams' addition to the city of Fort Wayne, Allen county, Indiana.
Also lot ninety-three (93) in Williams' addition to the city of Fort Wayne, Allen county, Indiana.
And on failure to realize therefrom the full amount of the judgment, interest thereon and costs, I will at the same time, and in the manner aforesaid, offer for sale the fee simple of the above described premises.
Taken as the property of the defendant to satisfy said order of sale.
EDWARD F. CLAUSMEIER,
Sheriff Allen County.

A NEW ROAD.

The Tehauntepec Connects the Atlantic and the Pacific.

Affairs of the Office and Shop as Revealed by the Reporter's Note Book.

An Associated Press dispatch from Coatzacoalcos, Mexico, is as follows: "Through trains are now being run between this port, on the Atlantic, and Salinas Cruz, on the Pacific coast, on the new Tehuantepec railroad. Local business is already heavy and it is expected that through traffic will increase very rapidly. Edward Boilette, formerly traveling auditor and commercial agent of the Mexican National road, has been appointed general freight agent of the Tehuantepec line. The general offices of the road will be located in this city."

MINOR MENTION.

General Manager R. T. McDonald, of the electric light company, is expected home today.

C. S. Knight, of the electric light works, has returned from a business trip to Detroit.

Ed Acres and Cheeny Knight left this morning for Danville, Ill., where they will install an electric light plant.

H. C. Lehrman, machinist, and G. F. Horstmeyer, carpenter, of the Wabash shops, are off duty on account of sickness.

Blacksmith J. D. White, of the Pittsburg shop, is sorely afflicted with an immense carbuncle in the arm pit. He is unable to work.

The passenger department of the Pennsylvania lines has asked for a differential on passenger business between Pittsburg and Cleveland.

Thus far but two charters of the Brotherhood of Locomotive Firemen have been surrendered on account of the late sympathetic strike.

J. E. Mohlfeld, machinist; E. E. Larrimore and R. J. Develin, helpers, of the Wabash shops, will take positions on the road as firemen.

Thomas Sullers resumed charge of one of the planers in the factory of Rhinesmith & Simonson this morning, after an illness of three weeks.

It is stated that the Vanderbilt people have about decided to extend the Empire State express fast service to Chicago over the Lake Shore road.

The Bass Foundry and Machine Works will ship a 100 horse power Bass improved Corless engine to J. D. Walker, Ervington, N. Y., next Saturday.

Since the voluntary relief department of the Pennsylvania lines east of Pittsburg was organized, which was in 1886 the association has distributed in benefits $3,534,490.83.

Owen Schoonover, who had the misfortune to injure a finger so badly that amputation was necessary, resumed work in the Wabash yards this morning after an absence of six weeks.

Christian Miller returned from Indianapolis this morning, accompanied by his son, Fred. The young man has recovered from the effects of the sunstroke, which came near taking his life.

Joseph Harris, machinist in the Pittsburg shops, last night received a telegraphic message from Bellefont, Pa., stating that his father was lying seriously ill at that place. Mr. Harris left today for Bellefont.

Matters are getting into better shape with the Toledo, St. Louis and Kansas City. Business is improving, more trainmen are being employed, and at the shops at Frankfort, Ind., two hundred men are working full time.

The Bass works is building some locomotive cylinders for the Nickel Plate road. In flourishing times this foundry does a good deal in the way of building cylinders for railways, but lately there is not much doing in that line.

This was the banner shipping day of the week at the electric light works, the firm sending out machinery as follows: To Philadelphia, 3,000 light incandescent dynamo; Austin, Texas, three 50 light arc and three 3,000 light incandescent dynamos.

Ed Johnson, I. U. Hager and W. H. Morse, who served the Wabash as extra road foremen of engines during the strike, have been assigned to passenger runs on the road, as follows: Johnson, Toledo to Andrews, Hager, Andrews to Tilton, and Morse, Detroit to Ashley.

Machinist W. S. Wells found twenty-two of his fine chickens lying dead in the yard this morning. From the tracks about the chicken yard he thinks a dog did the slaughtering. It will not be healthy for a strange dog to appear in the vicinity of Mr. Wells' home after dark hereafter.

In the practice game of ball at the electric light grounds last evening the regular Pennsylvania club beat the picked nine 8 to 2. The former club had three and the latter club four innings. Battery for the Pennas, Daeler and Wilcox; for the picked nine, Rady. Thomas and Conners. The latter was catcher and did some fine work, notwithstanding the miserable help he had. The Pennas are practicing for a game with the Allegheny shopmen's club.

The position of general superintendent on the Iowa Central has been abolished. H. Voorhees, superintendent of transportation, has been appointed assistant superintendent, and J. H. Hedman superintendent of transportation.

George Strausser and Miss Lizzie Hiltzelman were married yesterday. The groom is a machinist employed at the Bass works and the bride is the daughter of the Broadway tailor. Mr. Strausser sent a box of cigars to his shopmates.

A wrench dropped from the top of a box car at the east shops yesterday and alighted upon the head of Henry Toenges, a car builder, who was passing at that moment. Mr. Toenges received painful wounds and will be off duty several days.

The Peru Chronicle says: "A great number of Wabash engine men, who were discharged through their interference with the company's interest during the recent strike troubles, have left the city, and many have secured employment on the Baltimore and Ohio."

The private car of President Diaz, of Mexico, which came north with the president and some of his friends while in this country, has been rebuilt at the shops of the Pennsylvania railroad company, and on Monday night left Jersey City en route to the City of Mexico.

The Pennsylvania, the Lehigh Valley and the New York Central now have telephone service between many of the principal stations, which is greatly relieving the telegraph wires. The greatest objection to the use of the telephone on important matters is that there is no written record.

"Frank W. Morse" is the name of a magnificent steam launch built at Racine, Wis., for service on the Tennessee river. The craft is owned by W. J. Reynolds, the contractor who built the Wabash's new Chicago-Detroit line, and it was named in honor to his personal friend, Master Mechanic Morse, of this city.

The Wabash official has appointed three men to instruct firemen in their duties. They are George W. Munger, First and Second districts; C. H. Townsend, Third and Fourth districts, and J. H. Wagner, Fifth district. These men will ride on engines over their respective districts and teach the new men in the art of steam making.

The local lodge of the American Railway union at Terre Haute has ordered off the strike, the order including the Chicago and Eastern Illinois road, which has hitherto been exempted. On applying for work the strikers have found that their places are filled and that there is no work for them. A party of striking Vandalia switchmen left yesterday for Omaha. Terre Haute is the home of President E. V. Debs.

"The key to success in avoiding railway strikes is the selection of good material for employes and the development of their morals. Such men do not make excessive demands and are reasonable in the negotiations of a settlement." Thus spoke a Pennsylvania railway official. He then added that the employes of the Pennsylvania lines were all men of good standing at their homes and most of them were members of some church.

F. P. Sargent, grand chief of the Brotherhood of Locomotive Firemen, has returned from the east to his headquarters at Terre Haute. While absent he effected a settlement between the firemen and the transportation department of the Richmond and Danville lines which was satisfactory to both parties. The reduction in firemen's wages proposed was 20 per cent., but he succeeded in convincing the officials of the road that the cut was too much. The firemen offered to accept a reduction of 10 per cent. and the officials consented.

Pittsburg trainmen report a disastrous head end collision between switch engines on the Chicago and Eastern Illinois road at Forty-seventh street, Chicago, last night. Two men were killed outright and others were injured. At the point where the collision occurred the Chicago and Eastern Illinois parallels the Pittsburg and a passenger train on the latter road was passing at the time of the accident.

F. B. Tyrel, the well known machinist, of the Wabash shops, has been appointed foreman of the company's machine shop at Decatur, Ill., and will move his family to that city. Mr. Tyrel has been a faithful employe and has the ability to fill a much higher position than the one given him. His many friends will be pleased to learn of his good luck.

Charles G. Sleson, who became very wealthy through the building of a number of railways, one being the Northern railroad, of New Jersey, died in August, 1871, leaving an undivided estate valued at $2,500,000, which, through the advance in value, is now worth $4,000,000. This large estate is now to be divided, twenty years after the death of the millionaire, much of it going to his grandchildren. Of the three executors named in the will but one is now living—John Hull Browning, president of the Northern railroad, of New Jersey. Only one of his children is now living.

The strike at Chicago has greatly interferred with the domestic arrangements of many railway officials. A. H. Polhamus, road foreman of engineers of the Pittsburg, a man who is greatly attached to his home, has been deprived of its pleasures almost constantly since the beginning of the strike. He has seen very little of his family in all that time, being stationed at Chicago. Last Monday, C. H. Walton, superintendent of the Chicago division of the Panhandle, was enabled to return to his home in Logansport for the first time in six weeks. He, also, was detained in the Windy City by the strike.

The shopman, who feels the necessity for a little recreation and change from routine life, yet is not financially able to take a trip which would keep him from his labors and at the same time require a considerable outlay of cash, will find the Wabash's Put-in-Bay excursion next Sunday the very thing he is looking for. Put $2 in your pocket for fare, pack in a paper box a few sandwiches, and thus equipped you can enjoy an outing that under ordinary circumstances would cost you $10 to $15. The trip includes a ride of three hours each way on the magnificent steamer "City of Toledo," one of the finest boats on Lake Erie. You leave Fort Wayne at 6 a. m. and return at 10 p. m.

STRIKE FUND HAS DISAPPEARED.

Clark, A. R. U. President at Indianapolis, and $1,400 Missing.

INDIANAPOLIS, Aug. 9.—The directors of the American Railway union were here yesterday to inquire into the disposition of the funds raised here during the strike, and it is said that $1,400 have been embezzled by the local officers of the American Railway union and that President Clark is missing. The directors called upon the strike committee and asked what had been done with the books, and were informed that the local committee thought it best not to keep them and they had been burned. It is claimed that $1,400 raised here to assist the strikers has all been squandered and that no account of it whatever can be gained. President Clark, of the local union, has not been seen for two or three days. Many inquiries were made concerning him, but his whereabouts seem to be unknown. Great indignation is expressed by the strikers, who have lost their places permanently and were looking to the strike fund for relief.

Milk Cans,

pans, churns, bottles, everything which is used for milk, even down to the baby's bottle—these are things for which you need Pearline. With Pearline, they're cleansed more easily, more quickly, more economically, and more thoroughly, than with anything else known. The people who know most about milk say just this. We can't afford to print all the testimonials we hold. They're the expressions of opinion in conventions, in papers, everywhere where milk takes has a voice. The enthusiasm about Pearline is genuine. And it's natural. For all kinds of washing and cleaning, nothing equals Pearline.

Beware Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled; if your grocer sends you an imitation, be honest—send it back. JAMES PYLE, New York.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida street, San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at Dreier Bro.'s and Co. drug store. Regular size 50c and $1.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise.—A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood.—Will drive Malaria from the system and prevent as well as cure all Malarial fevers.—For cure of Headache, Constipation and Indigestion try Electric Bitters—Entire satisfaction guaranteed, or money refunded.—Price, 50 cents and $1.00 per bottle at Dreier Bros. & Co.'s drug store.

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dreier & Bro.

40 YEARS THE STANDARD.

BRITISH YACHT WINS.

The Britannia Scores a Victory Over the Vigilant.

The Sixteenth Race Leaves the Record, Eleven Victories for the Britannia and Five for the Vigilant.

Cowes, Isle of Wight, Aug. 9.—The Vigilant and Britannia started this morning in the race for the town prize of £100, presented by the inhabitants of the town of Cowes. The Britannia got slightly the best of the start and won the race. The times of the two yachts at the finish were: Britannia, 3:17:55; Vigilant, 3:20:07. The Britannia won by two minutes and twelve seconds, without counting her time allowance, and by four minutes and sixteen seconds corrected time. The victory of the Prince of Wales' cutter called forth a tremendous cheering from the Britishers and brought more into prominence the sullen demeanor of the spectators when, on Saturday, the Vigilant won.

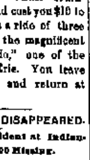

Emperor William, of Germany, on board the Meteor, followed the race with interest. The Prince of Wales was on board the Britannia with a number of guests and the Messrs Gould and Oliver C. Iselin were on board the Vigilant. It is admitted by the Vigilant's warmest admirers that her defeat upon this occasion was the sixteenth race in which the rival American and British yachts have taken part and the score now stands eleven victories for the Britanni and five victories for the Vigilant.

There's one tooth wash that ladies' pride,
Beloved by belles o'er every "wash" beside;
One dentifrice there is supremely blest,
A sweeter, better one than all the rest;
And you will find in every land the same
That SOZODONT's its old, familiar name.

"THE DEFENDER OF LIBERTY."

That Is What Workingmen Call William W. Erwin, Counsel For Eugene Debs.

"The defender of liberty" is what the laboring people of the northwest call Lawyer William W. Erwin, who is counsel for President Debs and other indicted officials of the American Railway union in Chicago. He is a native of Erwin, N. Y., a town named after his ancestor.

WILLIAM W. ERWIN.

General Arthur Erwin, and is 53 years of age. He studied law in the office of Judge George B. Bradley at Albany and was admitted to the bar in 1864. At the outbreak of the war he enlisted as first lieutenant and took a company to the front. After serving through the peninsular campaign in the brigade of General Sickles he left the service and in 1866 removed to Nebraska, where he practiced law until the time of his removal to St. Paul.

He was elected county attorney of Ramsey county in 1873 and the next year ran for state senator, but was defeated. He then abandoned politics and devoted himself so assiduously to the law that he soon had a wide reputation in the northwest. Many of his cases were those of poor persons against powerful corporations, cases in which the plaintiff had received injuries owing to the alleged negligence of the corporation sued. He was so successful in this line of work that his fame rapidly increased, and when the Homestead riots occurred the labor organizations of Minnesota sent him to Pittsburg to defend Critchlow, O'Donnell and Clifford.

These cases attracted the attention of the whole country. There were 18 indictments for treason, 30 for murder and 244 for aggravated riot and conspiracy, but the task confronting him did not in the least daunt "Big Bill" Erwin, as he is called in St. Paul. He went to work with a will, and after a herculean legal effort forced the state to abandon the prosecution after three trials without a conviction. His success was so pronounced that when Debs et al. recently ran afoul of the United States district courts in Chicago Erwin was at once secured as counsel for the accused men. He is a tall, well built man of commanding presence and is so eloquent that he can talk the average jury into doing almost anything. He is a devotee of athletics and is ex-president of the St. Paul Cricket club and president of the Minnesota Athletic club and Mississippi Rod and Gun club.

An Essential.

"Is your daughter fitting herself for the operatic stage?"

"Yes; she will be ready to appear when she finishes the study of the city directory."

"What has that to do with her stage work?"

"Merry, everything! She's hunting up a name that can't be pronounced."—Chicago Inter Ocean.

Striving to Please.

Hotel Clerk (at the summer resort hotel)—The man in 93 complains about this bill.

Proprietor—He does, does he? Well, you just make it out again on another sheet of paper and add in an extra charge for doing it. We're not going to have any grounds for complaint in this hotel. Not much we ain't!—Chicago Record.

Conclusive.

Exasperated Young Mistress (after a wordy argument with her cook)—Why, Bridget, it's perfectly absurd! Either you or I must be crazy.

Bridget (proudly)—Sure, and I would not be so bold as to think ye had no more since than to keep a crazy cook.—

BITS OF HISTORY.

THE first Christian school was established by the Parthians in 181.

GOLCONDA mines are now exhausted. At one time 60,000 men were employed in them. When the Sultan Mahmoud, who reigned in 1177 A.D., died, he left in his treasury 400 pounds' weight of gems taken from the mines at Golconda.

THE first aerial voyage was made Sept. 19, 1783, by a sheep, a cock and a duck to a height of 1,500 feet. The first human traveler through the air was M. Francois Pilatre de Rozier, who mounted the following month in a free balloon.

THE earliest known lens is one of rock crystal unearthed by Layard at Nineveh. This lens, the age of which is measured by thousands of years, now lies in the British Museum, as bright and as clear as it was the day it left the maker's hands.

IN the appalling catastrophe which destroyed the city of Lima and its harbor, Callao, in Peru, in October, 1746, the earthquake shocks were repeated every seven or eight minutes, and over 200 of the most violent kind were counted within twenty-four hours. In the great earthquake of Caraccas, on the 26th of March, 1812, fifteen shocks were felt on the first day, and they continued numerous every day until the 5th of April following.

THE oldest dressmakers' bill in the world has been discovered on a Chaldean tablet, dating 2800 B. C. It has an entry of "ninety two pure vestments for the priests." Among the items are "ten white robes of the Temple, eight robes of the house of his lady, ten collars of the house of his lady, ten pair of gold collars, two white robes and four scented robes," also "two winders," probably scarfs for binding about the waist. Before this the oldest account of this sort was on a tablet dating 1100 B. C.

THE Revolutionary War, 1775-1783, cost the United States $135,193,703. The Colonies furnished 395,064 troops. The War of 1812 cost $107,159,003; the number of troops estimated at 471,622. The Mexican War cost $100,000,000; the number of troops engaged was 101,282. The Civil War, 1861-1865, cost $6,189,929,908, according to the official records; the number of troops engaged on the Union side was 2,859,132, the total loss 469,504; the number engaged on the Confederate side was about 494,000 and loss about 300,000.

SICK-ROOM DON'TS.

DON'T appear anxious, however great your anxiety.

DON'T let stale flowers remain in a sick chamber.

DON'T have the temperature of a sick-room over 70 degrees.

DON'T jar the bed by leaning or sitting upon it. This is unpleasant to one ill and nervous.

DON'T ask a convalescent if he would like this or that to drink, but prepare the delicacies and present them in a tempting way.

DON'T neglect during the day to attend to necessaries for the night, that the rest of the patient and the family may not be disturbed.

DON'T be unmindful of yourself if you are in the responsible position of nurse. To do faithful work you must have proper food and stated hours of rest.

DON'T throw coal upon the fire; place it in brown paper bags and lay them on the fire, thus avoiding the noise, which is shocking to the sick and sensitive.

DON'T light a sick-room at night by means of a jet of gas burning low; nothing impoverishes the air sooner. Use sperm candles, or tapers which burn in sperm oil.

DON'T permit currents of air to blow upon the patient. An open fire-place is an excellent means of ventilation. The current may be tested by burning a piece of paper in front.

DON'T give the patient a full glass of water to drink from unless he is allowed all he desires. If he can drain the glass he will be satisfied; so regulate the quantity before handing it to him.

DON'T forget to have a few beans of coffee handy, for this serves as a deodorizer, if burnt on coals or paper. Bits of charcoal placed around are useful in absorbing gases and other impurities.

DON'T allow offensive matters to remain; in cases of emergency where these cannot be at once removed, wring a heavy cloth, for instance, like Turkish toweling, out of cold water, use it as a cover, placing over this ordinary paper. Such means prevent the escape of odor and infection.

ODD, QUEER, CURIOUS.

THE Isle of Man has no pawnshop.

THE cremation of the late King of Siam cost 280,000.

MORE people die in spring than in any of the seasons.

IRELAND is larger than Scotland by 12,000 square miles.

THE Turkish cavalry is admitted to be the finest in all Europe.

THE takings of London theaters and music halls exceed £1,500,000.

ONE pound of sheep's wool is capable of producing one yard of cloth.

RUSSIAN farmers hold an average of twenty-seven acres to each family.

IT would take a snail exactly fourteen days, five hours, to travel a mile.

IN the space of one minute the polypus can change its form a hundred times.

SEVEN MILLION persons are employed in the cultivation of the vine in France.

EIGHTY of the towns in Great Britain supply the names of 100 towns in America.

THE Singalese, after extracting the honey from the bee, chew up the insect itself.

THE Australians have more churches in proportion to population than any other people.

SOME of the houses in Berlin are numbered with luminous figures, which are easily visible at night.

AT the beginning of the eighteenth century people were licensed in Great Britain for the illicit manufacture of salt.

THERE are over 6,000 persons fed three times a day at Dolma-Bagtche Palace while the Sultan of Turkey is here.

TWO HUNDRED THOUSAND

Men Engaged in the Liquor Business in New York State.

The great influence which the liquor men exert upon politics is easily explained by the fact that nearly every person engaged in the business is a man and has a vote. The number thus employed is enormous. A conservative estimate places the number of men engaged either directly or indirectly in New York state alone at 200,000. There are 7,500 licensed liquor saloons in New York City, 3,000 in Brooklyn, 2,200 in Buffalo, 670 in Albany, 870 in Rochester, and 590 in Troy, a total of 15,000 in the six biggest cities. There are 15,000 licensed saloons in the other thirty cities of the State and 5,000 in the unincorporated townships, a total of 29,000.

Figuring at two, the average number of barkeepers to a saloon, the result is 58,000 proprietors, barkeepers and helpers. To this total must be added the following.

There are 550 breweries in New York State, and the number of men employed in each: workmen, superintendents, bookkeepers, collectors, cashiers, drivers, hostlers, chemists, coopers, and engineers, averages about eighty men, making a total of more than 50,000.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

There are 450 distilleries in the State having an average working force in all departments of about thirty men to office and factory, making a total of about 13,500 men engaged in the wholesale branch of the liquor business.

Then there are the dozens in saloon keepers' fixtures, the clerks, drummers, and workmen; there are those who make a business of providing the free lunches. There are the bottlers, a large class; the manufacturers of and dealers in glassware, saloon mirrors, beer pumps, and corkscrews, and the makers of advertising signs and ornaments. This about includes the domestic beer and liquor interest of the State and those interested and affiliated with it. There is to be added the foreign import trade in wines, champagnes, ales, spirits, liquors and brandies, and the agents, clerks, and salesmen engaged in it. With these additions the total number of men in the wine, liquor, and beer trades in New York State, or directly connected with them, does not fall anything short of 200,000. The business is peculiar in this, that it is almost the only one of large dimensions in which, from the nature of it, women and minors are wholly excluded. The liquor business is conducted almost exclusively by men, and practically by citizens, and to this fact is attributable, in part, the large influence which liquor men exert also in politics, for this is pre-eminently a case where every worker has a vote—if not more than one—through the influence which he is able to exert. The number of breweries in the United States is 1,800, and of distilleries, 4,791. The total in Germany is 25,000, and in Great Britain 10,000.

A VICTIM OF BARGAINS.

This Man Is a Prey to the Mania of Economy for Good Reasons.

"I am a victim," began the man with the long hair, as he unfolded the newspaper and dropped into a seat on a train beside an acquaintance, says the New York Herald. "I am a victim of my wife's taste, enterprise and economy.

"But, I say, old man, you ought to get a hair-cut."

"That's what I say, but my wife won't have it. She says I look more distinguished with long hair."

"Say, I never saw you with a red tie before. You were always very particular about those things."

"I know, I know!" said the other wearily, "I thought I had taste and I think so yet, but what am I going to do? This tie," and he gave it a savage prod with his forefinger, "was purchased at a sale—39 cents it cost—and I have to wear it to prevent a row. My wife says it looks swell.

"See these cuffs? Well, they are twelve-, and my size is ten and a half. They came off the bargain counter, too, at the rate of two pairs for 35 cents. Cheap? But I have to put tucks in them so they will fit inside my coat sleeves."

He gradually warmed up to his subject. "You ought to see my underclothing. Job lots, every piece; fragments. Some are too large and some are too small. See this hat? It came home in pink paper and cost $1.98. I wear a seven; this is seven and three-quarters. There is one morning and two evening newspapers in the band, so it will fit.

"But it was a bargain, sure. My hats cost me $5. You ought to be glad you're married. You must be saving money at that rate."

"Bargain? Bah! Don't talk to me of bargains. I'm sick of the word. I hear of bargains from morning to night, and sometimes during the night. I shouldn't be surprised if my wife should pick up a tombstone because it was cheap and would have to be used some time.

"And as for saving money! Whew! All the surplus cash goes for bargains. She has two trunks full of bargains that she says will come in handy some day. I live surrounded by a junk-shop, but for the sake of peace don't dare to say a word."

He leaned slightly forward as he spoke and there was a sharp click. He put his hand around to his back with a pained expression.

"What's the matter? Hurt yourself?"

"Oh, no," he said grimly. "Two of the patent suspender buttons bought at a bargain-counter have parted the ways and my 22-cent suspenders have broken. Say, you haven't a safety pin or a couple of feet of cord, have you?"

HE STOPPED A PANIC.

Millionaire Armour's Wonderful One-Day Record in Chicago.

Philip D. Armour, of Chicago, is an indefatigable worker. Here is a record of one day's work during the panic time of the summer of 1893. Chicago suffered then as the rest of the country did under the severe stroke of depression. But Chicago had something more than her business reputation to maintain. There was the exhibition. No white feather should be shown, for the White City's sake. Still, in that trying time, it was courage like Armour's that saved the exhibition from passing into the hands of a receiver. Chicago stood together, and with true civic zeal saved the threatened misfortune and enabled the World's Fair to pass on to its triumphant conclusion. One morning Armour learned at his office that in the distress of the hour a "run" had set in upon the Illinois Trust and Savings Bank. "This must be stopped," said he. There were two reasons for his zeal: first, the maintenance of the general credit of the city, which would be shaken in the probable event of "runs" upon the banks becoming contagious; second, his oldest son was a director in the assaulted institution.

Armour quietly left his office and mixed with the throng in front of the bank. He went about among the depositors and pledged his own credit to induce them to leave their funds where they were. He remained in the crowd of street all day and personally persuaded hundreds of the depositors to return to their homes. At the end of banking hours he arranged for a meeting of prominent Chicago men, to be quietly held the next morning, to grapple with the disasters which threatened the city. He cabled to London and bought half a million dollars in gold on his own account. Then he drove to the Armour Institute, to inspect the equipments then being put into place, and he serenely asked his usual question: "Is anything wanted?" On the way out he learned that the little daughter of an employe were dangerously ill with diphtheria. He went for his accustomed drive and for his almost daily call at the homes of his sons. Then he went home to dinner, and by 9 o'clock he was soundly sleeping, as if nothing had happened. The next morning he walked to his office, and on the way left $50 for the stricken family of his employe; he transacted his own business as calmly as ever; went to the bank again, turned away more depositors, and then left for the Mission Hall to play with the little children there. Meanwhile, his action in the crowd, and his purchase of gold, has set an example for other men. Confidence began to set in once more. The tide was turned.

Why send your Portfolios to Chicago to have them bound in padded binding? The Sentinel has a book bindery, and can do this work equal to any other, and save you express charges. tf

A RUSTLING COLLECTOR.

He Got the Money, But It Took Some Time.

"When I was a youngster of 17," said a successful business man, "I got a job as collector with a man who was about as strict a martinet as I ever saw. He insisted on everything being done just as he said, and there were times when life was verily a burden, but I stuck to him. One morning he called me up and handing me a bill on a man I knew, he said for me to take it around and collect it.

"'It's one of our standbys,' he said, 'and every collector I ever sent to him reported him absent or not findable or something. Now you go and don't come back here till you see him.'

"'Do you mean that?' I asked, as two or three clerks looked up.

"'You know me,' was all he said in reply, and I went out after my man.

"He wasn't at home, the people said, and wouldn't be for six weeks. So I stuck the bill in my pocket and went off up the country for a visit. The old man sent after me half a dozen times, but my folks could only tell I was out of town, and I never paid any attention to a letter got from the boss, but went on enjoying myself. Then I came back and had a visit with some other friends, and at the end of six weeks I called on my man again with the bill. I found him at home and told him what I had done and he paralyzed me by paying the bill, with interest. Two hours later I stepped into the boss' office.

"'There,' I said, before he had time to gather his wits, 'is the amount of your bill and interest. He was out of town for six weeks, and I couldn't see him before. You told me not to come back till I did see him and I was obeying your instructions. I had a rattling good time and the house owes me six weeks' salary.'

"The old man gasped, got blue in the face and I thought he was going to explode, but he didn't; he gulped it all down and stuck out his hand.

"'Young man,' he said, 'you ought to have been a soldier. I am going to put you in charge of the collection department and double your salary,' and," concluded the merchant, "when I was 25 I was a partner."

Have your Portfolios bound at The Sentinel office. Samples can be seen at the office. tf

--COUPON--
HARPER'S PICTORIAL HISTORY
—OF THE—
CIVIL WAR.
PART 16. NUMBER 1.

Size of Page: 16x11¾ inches. Number pages: Over 800. Pages in each part: 32. Price of each part: only 10 cents. Number of pictures over 1000 and all of the history besides.

Three coupons of different dates and 10 cents secures each part.

May 18, 1849.

To The Editor:

Volume No. 5 of Harper War Book just came, and it surprised me greatly to find the large colored map. Accept thanks for your promptness. I thought the other parts couldn't be beat, but they seem to grow better. If others appreciate the value of what you are giving for only 10 cents, you must sell a host of them, for if anybody once sees these War Volumes they must be as much surprised as I have been at so much, and so good, for such a low price. You deserve a vote of thanks for what you are doing. The good done by placing this great Harper history of the civil war in reach of every man, woman and child cannot be calculated.

Yours very truly,
F. B. D.

The following are the scores made yesterday by the regular league base ball teams: At Pittsburg—Pittsburg, 10, Cleveland, 3. At Brooklyn—Brooklyn, 1; Baltimore, 4. At Brooklyn—Second Game—Brooklyn, 5; Baltimore, 13. At Chicago—Chicago, 11; Cincinnati, 14. At Boston—Boston, 10; Philadelphia, 18. At Washington—Washington, 12; New York, 10.

William G. Stahl, the popular mail carrier, wore a smile of unusual dimensions this morning, while he greeted the citizens on his route with a cordiality that bordered onto hilarity. Had he been addicted to over indulgence at the bowl the people would have concluded he was intoxicated and thought no more about his apparently excessive happiness. But William never drinks and they were puzzled. Later in the day the mystery was solved. Mrs. Stahl presented her husband with a bouncing baby last night and this is the cause of all his happiness. Mr. and Mrs. Stahl reside at No. 340 South Lafayette street.

SMALLPOX.

A Case Reported Near Warsaw in This State.

Physicians report a genuine case of smallpox near Atwood, Ind., about five miles west of Warsaw. The patient is five years old, and is a granddaughter of Mr. L. Plummer. She is supposed to have contracted the disease while visiting in Michigan. The county board of health has taken steps to prevent a spread of the contagion.

Berries in Syrup

Is cheap enough to make pies of. Strawberries, Raspberries and Blackberries, in large cans, 15 cents, for a short time only, at the Princess Cash Store.

WILL BE ANNEXED.

South Wayne to Become a Part of This City.

All Arrangements Have Now Been Satisfactorily Made and the Council Will Act Next Meeting.

Last evening in the office of the board of public works that body, together with the water works trustees, the judiciary and water works committees of the city council and a number of South Wayne citizens met for the purpose of discussing the matter of the annexation of that suburb to this city.

A few weeks ago an effort was made to bring this about, but the South Wayne citizens were not yet ready on account of the shape of some of their municipal affairs. The result of last night's meeting, however, was perfectly satisfactory to both parties and at the next meeting of the city council that body will be recommended to annex South Wayne. This can be done at once, as the ordinance has been read twice and also published.

South Wayne will come into the city with no debt of considerable amount except the $15 000 bonded indebtedness for their new waterworks system. The suburb has about 3000 inhabitants within its limits and taxable property to the amount of over $1 000 000. There will be no changes in the waterworks pumping house because of the new drain on the system for the trustees say that the engines and supply of water are both adequate to the demand. The South Wayne system will be connected with the six-inch main on Creighton avenue and the trustees will lay a twelve-inch main on Pontiac street to connect with the South Wayne system. This, it is said, will give the new part of the city a copious supply of water for domestic purposes and for fire protection.

PERSONAL PARAGRAPHS.

Said About Fort Wayne People by Other Papers.

The Findlay, Ohio, Republican says: "Edward J Kitchie, of Fort Wayne, is the guest of his uncle, S. V. Ritchie, on North Main street."

The Elkhart Daily Journal says: "Mrs. George Nichols, of Fifth street, entertained her lady friends last evening in honor of Mrs. F. T. Simpson, of Fort Wayne, and Mrs. Herrick, of Anderson."

The Bluffton News says: "Mrs. A. M. Boleman, the guest of Mrs Hupp, returned to Fort Wayne today."

The Kendallville Sun says: "Mrs. Wells and Miss Sharp, of Westminster seminary, Fort Wayne, are guests of Mrs. S. Flint."

The Warsaw Daily Times says: "Miss Lottie Rohan and Miss Laura Walters, of Fort Wayne, are the guests of the Nottager sisters—Blanche and Vinnie—of this city."

The Columbia City Post says: "Chas. Hood and wife, of Fort Wayne, arrived in the city Monday to visit relatives."

The Laketon correspondent says: "Ansel Lukens and Miss Mercy Lukens are spending the week at Fort Wayne, visiting relatives."

The Wabash Plain Dealer says: "John Fawley, of Fort Wayne, was in the city yesterday, on his way home from Anderson, where he attended the reunion of his old regiment, the 130th I. V. I."

THE SUPREME COURT.

Many Cases on the Docket—Tolleston Case.

When the supreme court begins its September session, the number of cases awaiting consideration will be fifteen hundred. Many of these will not be taken up for more than a year. Among the important decisions to be handed down, probably in September, is one on an appeal from the Lake county circuit court. The case is known as the suit against the Tolleston club of Lake county, in which the state seeks to recover possession of 2000 acres of land. The Tolleston club is composed of Chicago men, who hunt and fish. According to the argument of the attorney general, the land used by the club belongs to the state. The tract involved is worth fully $100,000, and in northern Indiana much interest attaches to the case.

HIGHEST HONORS GIVEN

To Dr. Price's at the World's Fair.

-Chicago Tribune.

For leavening power, keeping qualities, purity and general excellence the World's Fair jury decided that Dr. Price's Cream Baking Powder had no equal. On each of its claims it was awarded a first prize or a diploma. All the baking powders entered for prizes were subjected to a most exhaustive examination, and the jury was the best equipped to make the decision of any ever got together. Their verdict was supported by the testimony of Dr. H. W. Wiley, chief chemist of the United States Department of Agriculture at Washington. Dr Wiley is an expert on food products and the highest authority on such matters in America. This verdict settles a long debated question as to which among the many baking powders is the best.

A NEW LOCATION.

At. Hazzard Purchased the B. & O. Cigar Factory and is Now Located at 11 E. Main St., Up Stairs.

Mr Hazzard has for several years been the foreman of the B. & O. factory and since its purchase has moved to his present location. He is an old and experienced cigarmaker and one of the best judges of tobacco in the west. His aim is to make the best brand of cigars in the city and his National is winning favors rapidly.

CONTINUES BUSINESS

Notwithstanding the Defalcation of the Cashier.

Altoona, Pa., Aug. 9.—The Second National Bank failed to open this morning. A notice on the door signed by National Bank Examiner Miller, says "This bank will not open for the transaction of business until further notice." The examiner is at the accounts of the defaulting cashier is still in progress. The amount of shortage is now supposed to be larger than was first given out.

PRACTICALLY BROKEN

Is the Strike of the Omaha Butchers.

Deputy Sheriffs Break Up the Picket Lines of the Strikers and Drive Them Away.

Omaha, Neb., Aug. 9—Sheriff Drexel sent 100 deputies to South Omaha at an early hour this morning, and as a consequence there was no trouble when the new men went to work in the packing houses. The deputies broke up the picket lines of the strikers and escorted the workmen to the houses in squads. The strikers stood around at a distance and hooted and jeered, but they did not offer to do anything violent. A number of the old men returned to work under the protection of the officers. All of the houses began killing in spite of the threat of the managers that they would do no work until the militia had been called out. It is the general belief that the strike is now practically broken.

Morris, Ill., Aug. 9—The coal strike which began April 12, and has prevailed in Grundy county up to the present time, crippling all industries and branches of trade and driving thousands to the verge of starvation, was officially declared off this morning. Deputy Sheriff Alsdurf, who has been stationed at Carbon Hill with a large number of deputies, telegraphed Sheriff Daniels that the strike had been declared off and asked that conveyances be sent for the removal of his men, the situation being no longer considered dangerous.

TWO DIVORCES

Commenced in the Courts of the City—Other Cases.

Jacob P. Keyser has been appointed executor of the last will of Jacob Smith.

William J. Sterlin sues for a divorce from Dellia Sterlin. J. H. Aiken is attorney for the plaintiff.

Lina S Light filed proceedings yesterday to obtain a decree of divorce from Edward Light. She asks $300 alimony. A. H. Bittinger is attorney and in the complaint alleges cruelty.

Clarence Ripley, one of the prisoners in the county jail, has been taken to Wabash to attend the funeral of his father, who was killed in an accident at Alexandria.

The Black & Gleason company have been given a judgment in the superior court against the Crescent Paper company for $2,080.

Congressional Nominees.

Baltimore, Md., Aug. 9—The state prohibition convention at Glyndon park has nominated congressional candidates as follows: Second district, D. H. Parker, Baltimore; Fifth district, Col J. C Lee, of Prince George's county, for the shorter term and Wm. H. Silk, of Andrundell, for the long term. Sixth district, Albert E. Shoemaker, Montgomery county.

Beaten by an Unknown.

Golden, Cal., Aug 9—W. H Copple, the world's champion 200-yard runner, was beaten in a 200 yard race here yesterday by an unknown, who gave his name as Adams, but is supposed to be Jack Gibson, ex-champion runner of England. Adams had six feet start and won by four feet in nineteen and one half seconds. Several thousand dollars changed hands on the result.

There Was No Fight.

London, Aug. 9—A dispatch to the Times from Tien Tsin dated August 8 says Col. Von Hannekin's deposition, which was read before the court of inquiry appointed to investigate the details of sinking of the Kow Shung confirms the previous reports of the affair and denies that there was any fight between the Naniwa and the Chin Yuen.

Go With Us Around The World.

We offer to our subscribers the most beautiful art work ever published at a merely nominal cost. This is an entirely new work, every plate being made especially for it. It is called

"FAMOUS PAINTINGS OF THE WORLD."

It is a collection of PHOTOGRAPHIC REPRODUCTIONS OF GREAT MODERN MASTERPIECES. It contains specimens of the great paintings of all art-producing nations and includes ONE HUNDRED OF THE MOST NOTABLE PAINTINGS at the

WORLD'S COLUMBIAN EXPOSITION.

It exemplifies the most ATTRACTIVE, INTERESTING, PURE and INSPIRING qualities of contemporaneous art. It contains a superb introduction by the greatest living novelist, GEN. LEW. WALLACE.

GEMS OF MODERN ART

Reproduced by the perfected half-tone process, having the appearance of the most perfect photographs. So large a collection of photographs of paintings could not be purchased for less than $1,000, and yet these photographic reproductions are offered to the public at the insignificant price of TEN CENTS for each portfolio.

Every picture is described by the brightest and best of America's writers on art subjects. These descriptions are not technical or prolix, but bright and interesting.

The materials for this publication have been gathered out of the most Famous Galleries and finest Private Collections in the Old World and the New.

All eminent artists are represented, but the minor artists and young aspirants for artistic honors—whose names are not yet household words have not been overlooked. The Committee of Selection have often chosen a meritorious and pleasing picture by a comparatively unknown artist in preference to an unattractive subject by a painter of prominence. This magnificent art work is in itself a

Home Gallery of Famous Masterpieces.

Do not fail to secure the first portfolio at once. The first Portfolio contains sixteen reproductions of great paintings, and also the magnificent introduction by GENERAL LEW. WALLACE.

All the future portfolios will contain sixteen reproductions of MASTERPIECES OF MODERN ART.
